Save time and solve problems with this order-direct catalog

Welcome, data users . . .

This catalog is for you who work with data processing at one level or another, to one degree or another. The hundreds of products you'll find here solve problems at every step in the information handling process.

One-step selection

That's why so many of our customers turn to this catalog as their one-stop source for the supplies and accessories vital to data generation and application.

If you're a president who deals only with final facts—or a programmer facing a new challenge—you'll find products within these pages that simplify your job. If you're concerned with security, or with keeping your system up and running, there's something here for you, too—products that significantly boost efficiency and cut costs.

Solutions to problems

Several of the products in this catalog were developed by Devoke to fill specific needs of DP users. All the products are selected by strict quality standards and put to test in user environments to assure you they'll perform as you expect them to perform.

Service and satisfaction

We've been in the business of selling to business for well over ten years. We've built our reputation on quality and service, supported by the simple, 100% satisfaction guarantee you'll find below. We make every effort to ship orders within 24 hours and our own data confirms that we make it in most cases. And, we're constantly at work to surpass our own good record.

Order by mail or phone

To speed turn-around time on the items you need, place your orders by telephone. Our lines go directly to our Order Desks to handle your calls promptly. You'll find knowledgeable sales people ready to help you. But, if they can't help you completely, on the spot, they'll get back to you as quickly as they can get an answer, re-check a compatability, or suggest a solution.

What's new? Find it here

You'll find new products offered with each new issue of our catalog as our response and anticipation of the special needs of DP users. Look for them! And, we'll look for you—by mail or telephone!

Cordially,
DEVOKE CO.

CRT Trays

Increase operator efficiency and convenience

Finally, a solution to CRT work station clutter! Formed of crystal clear acrylic, the open front tray fits on top of CRT units to keep in-use-materials stacked neatly within easy reach. Measuring 16″W x 12″D x 2½″H, it's ideal for accommodating stacks of DP printout up to 14⅞″ wide. A handy thumb notch in the front of the tray allows easy access to contents. Four rubber feet keep the tray steady and in place.

	Price Each			
Item #	1	4	10	25
5051	$16.95	16.50	15.95	15.50

Crystal clear trays streamline work processes while relieving workstation clutter

Computer Room Clocks

Display time clearly on a 12 or 24 hour basis

24 Hour Clocks

Save yourself the hassle of constantly converting time—a quick glance at our Computer Room Wall Clocks give you the time clearly on a 12 and 24-hour basis. Generous 12″ dial faces are printed in large black and red numerals: 1-12 hours in black, 13-24 hours in red. They're easy to read, even from a distance. And they're reliable—choose from a time tested electric movement or a precision, battery operated quartz movement. Both will deliver years of accurate service. Clocks have attractive brown, high impact case. Overall diameters are 13⅜″, depths are 2¾″.

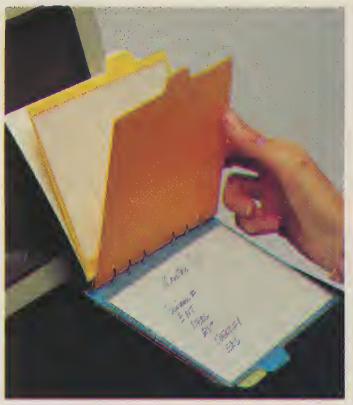
		Price Each	
Item #		1	4+
5457	Electric	$28.00	26.50
5458	Quartz*	37.50	36.00

*Requires one "C" type battery, not included with unit.

Clean up your terminals! Organize your reference notes with our new DP Menu-Minder

—A user/operator log for CRT and Pos terminals

- ☑ faster, neater
- ☑ more accurate
- ☑ easily updated



Scoop up all those operator notes tacked and taped around your terminals and transfer them to Devoke's new DP Menu-Minder! Small, 6½ x 5½″ 6-ring manual mounts vertically or horizontally to any flat hard surface—indexes reference notes for individual operators at each station.

DP Menu-Minder mounts permanently with self-adhesive tape or mounts with Velcro® tabs so it can be removed and switched among terminals. Both types of fasteners are included, with 5 flexible vinyl page holders, 5 colored index dividers and 20 reference cards ruled to match the direction in which you mount Menu-Minder. **For very little money you can save a lot of time** and make your work stations as neat and professional as the information you generate.

New deluxe Data Stands combine good looks, superior quality and the options you're looking for

If you're looking for the absolute best available in workstation furniture today, our new line of Deluxe Data Stands was designed with you in mind. Superior engineering and innovative design features have been incorporated in every detail. The result is beautiful workstation furniture that provides maximum support and protection for expensive and sophisticated modern office machines.

Cantilevered design permits operator freedom of movement from any position—yet provides a base that will support enormous weights and stresses without wobble or torque. It's fabricated of heavy steel joined to form extremely rigid support members throughout.

#7312 in Walnut/Black finish with optional Storage Module

Desk tops are a standard 30 inches deep, providing large work surfaces with a full one inch thickness to support the heavy weight of word processing and computer equipment. Tops are finished in handsome self-edged woodgrained laminate in oak or walnut to complement a choice of metal finish in putty or black.

Matching leg panel inserts of woodgrained laminate continue the soft woodgrain appearance down each side to further enhance total eye appeal.

Leveling glides are provided (two per leg base) which compensate for an uneven floor and assure level placement of table. Glides also reduce vibrations harmful to sensitive machines.

A ten inch deep shelf runs the full width of each Deluxe Data Stand. In addition to storage value for books, binders, reference media and personal effects, the shelf acts as a horizontal joiner trestle that provides rock-solid stability to the total form. A special channel is welded beneath the shelf to assure against sagging—an unseen but influential example of the extra strength built into each unit.

Modesty panel also runs the full table width. This expanse of heavy gauge steel provides style, enclosure, and along with the shelf, forms the right-angle support member that is so important to the total structural integrity of the unit.

CRT Chairs add comfort, style, and efficiency to workstations

CRT Chairs feature durable vinyl upholstery with fabric seat inserts and sparkling chrome bases

Now you can choose from three chairs ideally suited to your computer room environment—all three are comfortable, durable and good looking. CRT chair with walnut finish wood arms has a back and seat that tilt together. CRT posture chair has a tilt back; and the regular CRT chair has an adjustable back. All swivel a full 360°. Chairs are upholstered in rich brown vinyl with "breathable" fabric seat inserts. Sturdy base has heavy-duty rectangular legs with full circumference welding and non-corrosive casters that insure the ultimate in chair mobility.

CRT Chairs

		Price each

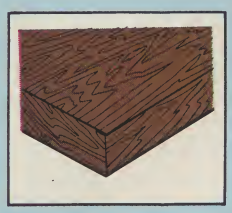
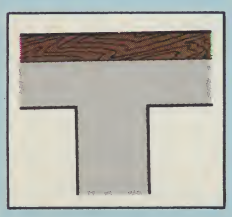
5441	CRT posture chair	98.00	93.00	89.00
5442	Regular CRT chair	91.00	86.00	82.00

Our Data Stands are handsome, sturdy, priced right and ready to ship!

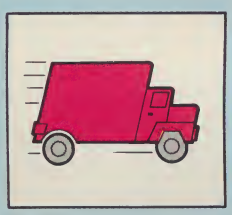
Fact after fact tells you why Devoke offers the best Data Stand value on the market today:



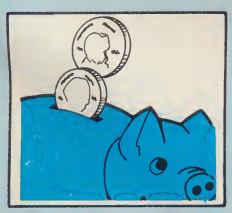
A full 1 3/16" thick, self-edged top provides long-lasting strength and beauty. It's made of dense particle board, finished with a tough high pressure plastic laminate in beautiful walnut grain. All materials meet or exceed NEMA specifications.



Sturdy, 3" x 1" tubular 16 gauge steel legs—many similar stands use 2" x 1", which is neither as strong or attractive. Legs are welded and ground smooth; full width modesty panel of 18 gauge steel adds lateral stability. All tables will hold up to 400 pounds.



Fast Shipment! Because so many of our customers need their tables NOW, we keep a full stock of our Data Stands on hand. Twenty-four hour shipment means you could have your tables in place, ready to use right on schedule!



Compare our features, service and price—and you'll agree that Devoke offers the best Data Stand value on the market today. The facts speak for themselves.

Special needs? Call us at (415) 494-8844 for quantities, blanket orders, custom sizes or finishes.

Satisfaction Guaranteed

Every Devoke Data Stand and Deluxe Data Stand is guaranteed to be free of defects in materials and workmanship. If you should ever receive a defective stand from Devoke, simply notify us and we'll replace it. Sorry, we cannot be responsible for damage due to abuse or mishandling.

Designed for the specific needs of today's office, these stands maximize operator comfort and efficiency. Table height of 26" is ideal for accurate keying, and pedestal leg design permits easy access with unrestricted movement. The good looks and quality construction of these stands will enhance any work area. Laminated tops are one full inch thick and finished in rich walnut woodgrain. Modesty panel and legs are finished in black baked enamel. Legs have adjustable levelling guides for a sure stance.

All tables are sturdily constructed of 1" x 2" and 1" x 3" tubular steel with handwelded crossbars and bases for lasting strength—units will hold up to 400 lbs. (Most CRT's weigh only 50 lbs.) Shipped knocked down, they're easy to assemble in only 10 minutes. Order yours today—they're in stock, ready to ship!

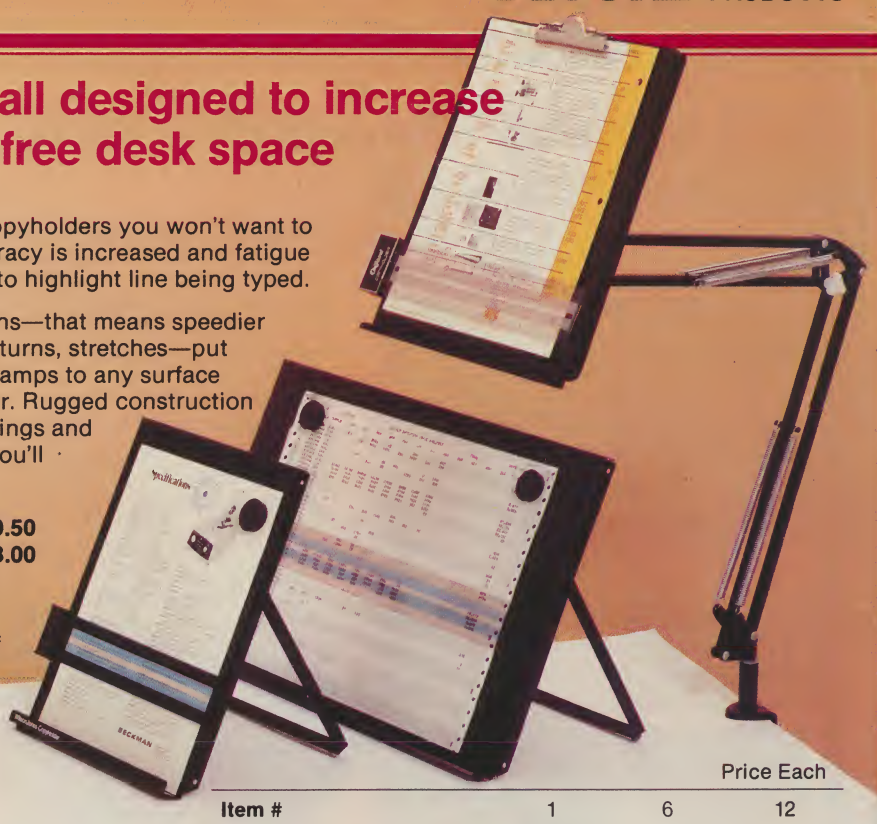
Choose from 4 copyholders—all designed to increase efficiency, reduce fatigue and free desk space



See for yourself—once you've worked with one of these copyholders you won't want to be without it! By positioning copy where you need it, accuracy is increased and fatigue reduced. All have transparent line guards with clear strips to highlight line being typed.

#6309 Swivel Copy Holder. 360 degrees help in all directions—that means speedier keying and reduced errors. Flexible arm movement twists, turns, stretches—put copy where it's needed within a 36" radius of mounting. Clamps to any surface up to 2¼" thick and holds up to 22 sheets of 11 x 8½" paper. Rugged construction of heavy gauge aluminum, steel tubing, tempered steel springs and machined hardware.It's so adjustable to individual needs you'll find dozens of uses in information handling.

Item # 6309	**$39.50**
2 or more	**38.00**

#6310, 6330 and 6331 Stationary Copy Holders. All three of these stands adjust to the angle to suit you and then fold flat for storage. Round paper holder and line guide are magnetized and respond to finger tip movement and 1" lip at bottom securely holds stacks of paper or books. Back is cut so steno pages can be flipped without removing notebook. Sturdy steel construction.

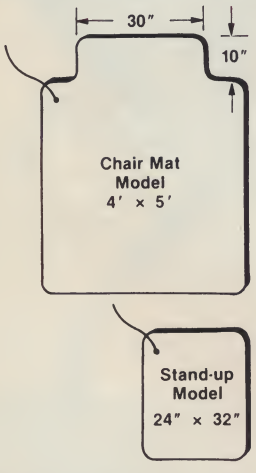
6331	DP "widetrack"	30.25	29.50	28.65

Antistatic Mats *Protect sensitive equipment by draining dangerous workstation static*

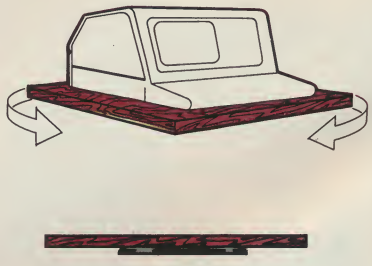


Effective and permanent! Simply place one of these "super-mats" at each of your workstations and forget about static problems once and for all. Conductive plastic pads drain static electricity the instant you step on them to prevent dangerous static damage to delicate equipment. Each mat has a simple snap-attach ground cord to ensure complete static dissipation. Made of tough, 1/8" matte black polyolefin, they last for years and never lose their conductive properties. For sit-down work areas, the 4' × 5' mat provides ideal size and surface for rolling chairs. For standup applications such as bank terminals, point of sale terminals, and quick reference CRT's, our 24" × 32" fits the bill. For maximum static protection, order the mats you need today!

Item #	Description	Price each 1	3	6
5425	4'W × 5'L × 1/8"th Anti-static mat	$168.00	163.00	159.00
5426	24"W × 32"L × 1/8"th Anti-static mat	50.00	48.00	46.00

CRT Turntables *Provide full access for more efficient use of terminals*

Turntable (Top View)



Turntable (Side View)

Maximize the efficient use of your CRTs and keying time with these sturdy CRT turntables. Multiple access and improved operator manuveurability are assured by full 360° rotation on a smooth, stable ball-bearing assembly built into the base. Units swivel with ease, yet stay put when in desired position. Low profile design will not alter proper work height.

Woodgrain, high pressure plastic laminate finish is both beautiful and durable. Laminate *and* particle board case both meet or exceed all NEMA specifications. Easy to clean with the wipe of a cloth, they'll blend nicely with your workstations. Turntables are cushioned so they won't slide or mar work surfaces and weight capacity is a hefty 300 pounds.

Item #	Size	Price Each 1	4 or more
7328	15" x 18"	$39.95	38.50
7329	19½" x 24"	49.95	48.50

Total Versatility! A floppy filing system that grows as your needs grow

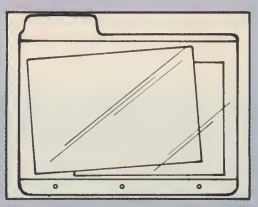
Works in: File Drawers, Binders, Portable Cases

When you need an open end retention system that can grow as your needs grow, it's hard to beat standard file drawers. That's why we developed the Floppy and Minifloppy File Carriers. The Floppy File Carrier snugly holds a diskette in one pocket, a reference index in the other. The Minifloppy File Carrier holds two minifloppies in individual pockets, with corresponding indexes in separate pockets.

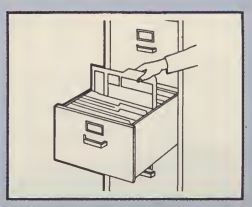
File Carriers have .015 rigid vinyl backs in Beige and clear vinyl fronts. Index cards and tab labels are included to clearly identify data.

Workbook Portability, Bookshelf Organization:
And we solved the problem of portability to work stations by three hole punching file carriers for use in our oversized 3-ring Floppy File Binders. Binders include distinctive white floppy disk identification on spine and a magnetic exposure warning on the front cover.
With the included spine label holder, bookshelf organization is simplified and contents can be identified at a glance.
Each binder comfortably holds 10 File Carriers and related hard copy. Binder is navy blue, has 1" capacity, and is made of heavy gauge Polyoak—a rugged, long-life plastic. Cover size is 12½" x 11".
Plus you can file related hard copy right in the binder with your media. Or order our deluxe file carriers with a full-size pocket on back for hard copy.

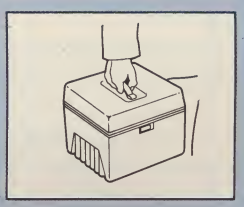
File Case portability: When you need portability for more flexible disks than binders can handle, our Floppy File Cases fit the bill. Sized just right for over 100 File Carriers, capacity is 100 floppies or 200 minifloppies. A recessed handle makes it easy to carry and 2 adjustable file dividers keep contents well balanced. Construction is aluminum reinforced ABS plastic, the football helmet material that won't rust, chip, dent, peel or scratch. Color is black and overall size is 13½"W x 11"H x 9½"D.
Whether you fill a file drawer, a file cabinet, a binder or a carrying case, File Carriers offer a universally accepted file format and are a practical mode for a long-range flexible disk filing system.



File hardcopy right along with your floppies by ordering our Deluxe File Carriers with back pockets (Item #'s 5006 & 5008).



File Carriers are sized to fit standard file drawers for convenience, accessibility, economy and versatility.



File Cases provide both portability and lockable security for over 100 floppies or 200 minifloppies. Rugged case will last for years.

File Binders let you turn any shelf or table top into a data library. Bold white lettering and spine index cards clearly identify contents.

File Carriers

$65.50 per set

Item #5028—includes 1 #5301 File Case, 50 #5007's
$97.50 per set

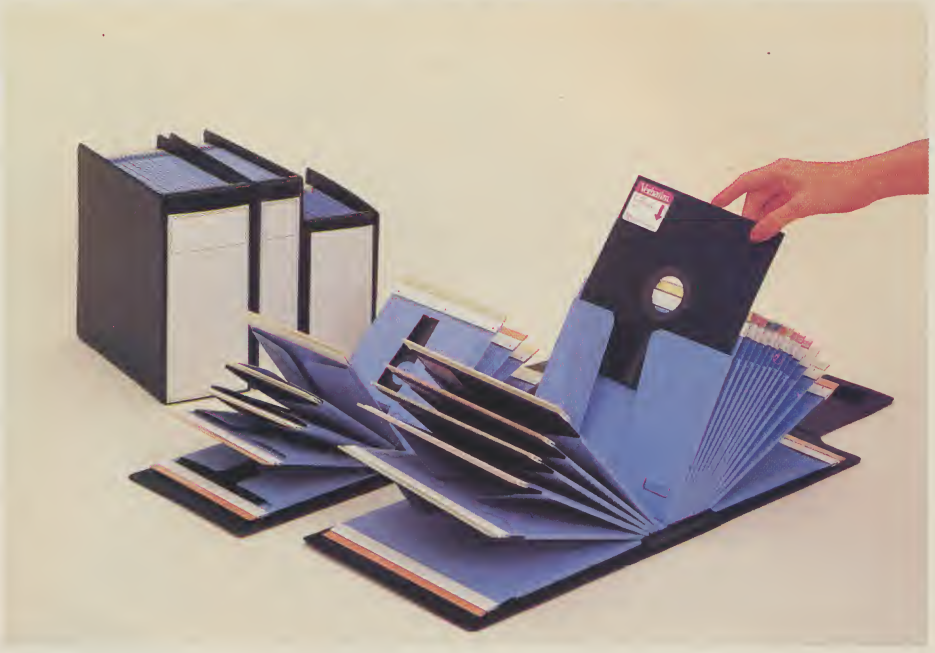
How unique design protects your media

Suspended pockets with a built-in cushion keep floppy disks flat—free of stress and pressure. It's a great idea used in the Album and Stands shown here.

A flared crimp pattern in each pocket creates a cushion that functions as a "stand-off" between floppies—whether the filing unit is open or closed, underloaded or filled to capacity. Two inverted tabs exert just enough tension for positive hold, but not enough to create stress. Mounting axles turn without resistance so there's no possibility of stress in use.

Pockets are strong PVC plastic—not just folded like envelopes, but shaped with a ⅛" dimensional fold. PVC is a material with a memory, so the cushion protection that's designed in stays in.

Protective pockets prevent disk damage

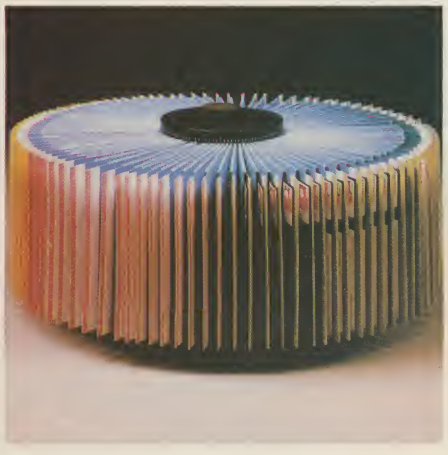


Albums

Cushioned pockets, described at left, are assembled in rigid vinyl album covers with snap closure. Axles "float" with spine movement to prevent stress. There's a clear pocket on outside backbone of the album for indexing contents. Index area also runs full length of each pocket page. Inserts for indexes are included. Cover is Black, pockets are Blue.

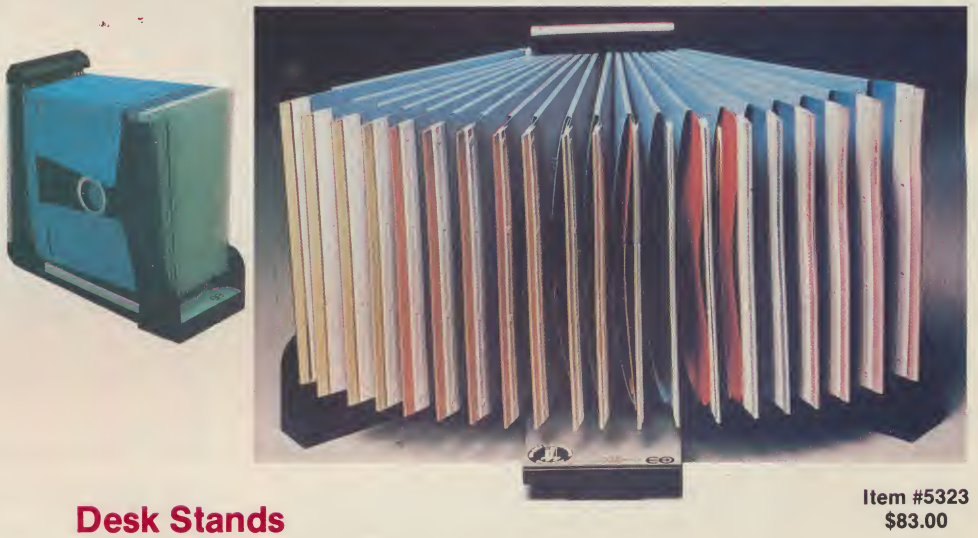
Item #	Description	Dimensions (W × H × D)	Price
5322	20 Capacity Floppy Album	9½ x 9 x 4"	$57.00
5329	10 Capacity Floppy Album	9½ x 9 x 2"	42.00
5767	20 Capacity Mini-floppy Album	6½ x 6 x 4"	43.00

Rotary Stands



Fast access! 100 pockets are axle mounted in a stand that rotates smoothly on ball bearings. Insertable indexes run full length of pockets so your flexible disks are easy to identify. Ideal when you need high capacity storage within reach.

Item #5320
$361.00

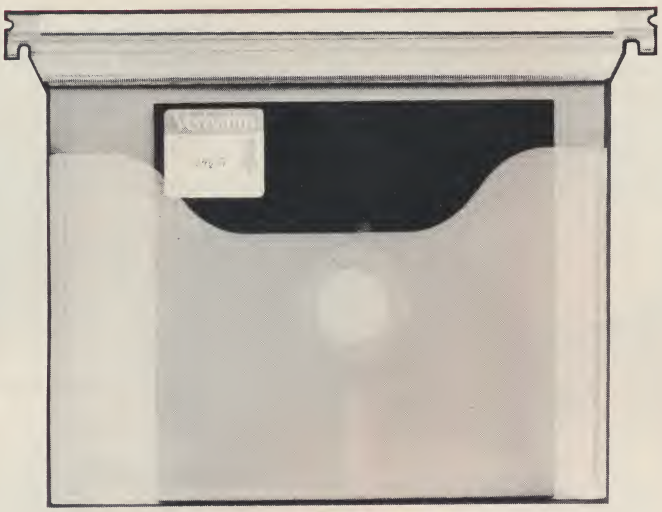


Item #5323
$83.00

Desk Stands

Cushioned pockets are axle mounted to a compact desk stand for a highly functional Floppy Disk File. Full length colored indexing strips at the outside edge of each pocket give you instant reference. When not in use, outer legs of the stand swing in, draw the file to a compact 4½" width when closed. File is about 10"H, 20"W when open. Frame holds 20 pockets for 20 diskettes. Stand is Black, pockets are Blue. Stand also may be wall mounted; screws are included. Convenient to use for the years of service you can expect from this top quality file.

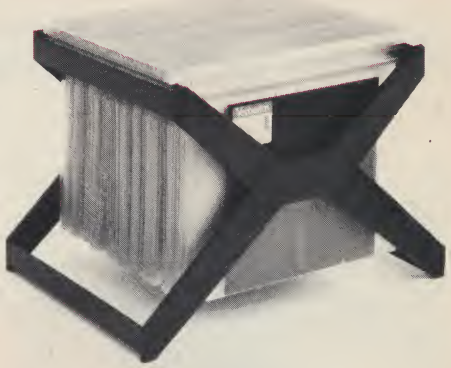
Indexed Vinyl Pockets with hanging rods hold Diskettes and hard copy in suspension files



Here's how to store your diskettes in file drawers equipped with suspension frames. These vinyl pockets have hanging rods across the top with built-in channels for inserting an index strip across the full width. Pocket will also hold reference material.

To conveniently transfer your hanging pockets to workstations, we've added a brand new X-Rack (right). Pockets are durable .10 vinyl. Blank index strips are included.

			Price each
Item #	20	40	100
5768	$2.25	2.20	2.15



Desktop X-Rack

Use this new Deflect-O X-Rack as a holding station for your diskettes in hanging pockets. Or, use it for hanging file binders. Rack holds letter size files on one side, flips over to hold legal sizes on the other. It can be set into many desk drawers or, when not in use, it can be folded up for storage. Black plastic with woodgrain trim. Overall size is 16″L x 12″W x 11″H.

		Price each
Item #	2 (Min)	4 & up
5052	$9.95	9.50

For Hanging File Binders to hold reference material, see Page 36.

Portable Cases

We've added this portable file case with side suspension rails to handle the vinyl floppy pockets above. Case is made of ABS, the football helmet material, so you know it can take heavy use and still keep its good looks. Handle is recessed in cover. Case locks; 2 keys supplied. Overall size is 13½″W x 11″H x 9½″D. It will hold up to 50 vinyl-pocketed disks, plus the 6 colored hanging file folders that are included to store reference data. Color is Black.

			Price Each
Item #	1	2	4 & up
9349	$36.20	35.55	34.60

Floppy and Mini Diskette Holders 3-hole punched for Binder Storage

Start a practical and economical floppy library with these vinyl holders for regular and mini-floppies.

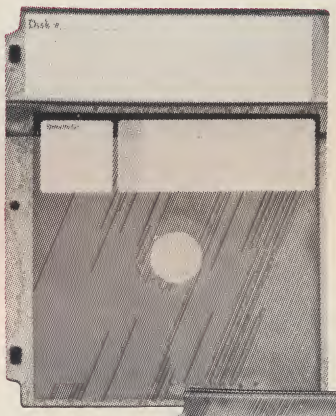
Holders are 3-hole punched for storage in standard 3-ring binders. Convenience and visibility are particularly good when you file holders in Easel Binders. (See Page 42).

#5308 for Floppies: Non-glare vinyl holder is pocketed on both sides to hold 2 flexible disks. Separate top pockets hold index cards which are included.

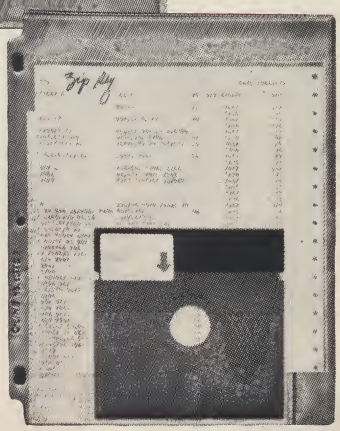
#5309 for Mini Diskettes: Holder is designed to house one mini disk and up to 20 pages of hard copy, easily accessible from the half pocket behind the disk storage pocket. Durable non-glare vinyl, 3-hole punched for binder storage.

			Price Each
Item #	50	100	250
5308	$ .89	.85	.82
5309	.87	.83	.80

Overall size of both folders is 9″ x 11¼″



Item #5308



Item #5309

Superior Quality Flexible Disks

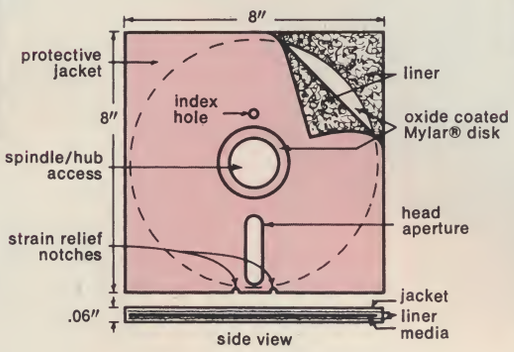
Compatible with Your System and Guaranteed for a Full Year

Why Verbatim Disks Are Different— And Better.

These flexible disks are manufactured under the strictest of cleanroom conditions and undergo intense quality control throughout the manufacturing process.

The Verbatim formulation — the industry's most advanced gamma ferric oxide medium — optimizes head to disk contact by reducing headwear and increasing disk durability to in excess of 3.5 million revolutions per track. Verbatim uses a unique combination of coating, surface treatment, assembly, certification, and initialization to optimize head-to-tape contact — and to give the diskette its superior performance. But it doesn't stop there —

The soft-nonwoven synthetic liner which houses each disk is bonded to its jacket by a precision process to insure strong adhesion. Maximum wiping action with minimal rotational torque is achieved by special installation techniques. Each jacket is die cut with precision openings for Index/Sector detection, Read/Write and Pressure Pad access.



Every Verbatim diskette also features "strain relief" notches. These are two "C" shaped notches cut into the diskette jacket on either side of the head access area. Their purpose is to relieve any strain exerted on the diskette due to mishandling; strain that can otherwise cause the media to excessively rub the jacket.

Finally, each Verbatim diskette is certified 100% error-free in its final package. This method of certification is far superior to the other common methods of bulk and statistical certification because each individual diskette is thoroughly tested. The Verbatim certification process performs a write operation, followed by a read and compare operation, on all 77 tracks of the diskette. A bit by bit comparison is made on each bit of every track for output amplitude and bit consistency. If one bit on the track falls below the threshold level, the diskette is rejected.

Certification operator inserts diskette into Post Assembly Certifier for the final phase of quality inspection.

Choose the diskette you need in the selection guide to the right. Pricing and diskette description appears in the schedule below. If your machine or model is not listed in the selection guide, call us at (415) 494-8844 and we'll provide the proper compatibility.

Flexible Disk One Year Guarantee

All Verbatim flexible disks from Devoke are guaranteed to read and write 100% error free for one year from date of shipment. If you should ever receive a defective flexible disk, please notify Devoke, return the product, and we'll replace it at no charge.

Sorry, we cannot assume responsibility for damage due to accident, abuse or mishandling.

Minidiskettes

Guaranteed 100% error free and compatible with your system.

Quality

All Verbatim™ minidisks are manufactured under clean-room conditions in facilities designed specifically for this product. Rigid quality control standards insure the highest performance. Each minidisk is certified 100% error free in the final package — and that's backed up by the same guarantee as our standard size flexible disks.

Compatibility

These minidisks are totally compatible and interchangeable with Shugart and other compatible Mini Flexible Disk drives. You can choose your Minidisks in soft-sector, 10-sector, and 16-sector versions.

Item #	Description	Price each 10	50	100
5590	Soft Sector, one index hole	$4.15	3.85	3.60

For use on: Altair — 680D — MDS; Micropolis — Metafloppy Mod II; PCC Microsystems (Pertec) 88-1301, 88-1301				

New! Preformatted Minidiskettes

Now you can buy quality minidiskettes preformatted to the specifications of the manufacturer of your equipment. All meet or exceed ANSI, ECMA and ISO standards, and are manufactured under the same stringent quality control standards as our regular line of diskettes. Each minidiskette is certified 100 percent error-free, and we guarantee that for a full year! (See flexible disk one year guarantee on Page 10.)

Are you sending your floppies into early retirement?

No need to. With Devoke's Disk-Pro-Tek® you can nearly triple the useful life of your floppies and minifloppies.

Devoke's Disk-Pro-Tek™ can triple the life of your floppies for less than 25¢ per application.

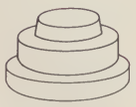
Dimpling, coating removal, permanent distortion: These are the damages caused when a disk has a weak or torn spindle hole or when it is improperly positioned on a spindle. You can prevent these damages, and prevent data loss, by strengthening each disk with Disk-Pro-Tek™.

Disk-Pro-Tek™ is a 6 mil Mylar O-ring which you apply to the spindle holes of your new diskettes. The result: spindle holes with **ten times** their original factory strength.

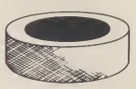
And there's no guesswork about installation. Our kit contains a precision-milled aluminum tool for fitting the protective rings in place. Two-stage tool and two part labels are designed for use with 8" or 5½" diskettes. You simply place a Disk-Pro-Tek ring on the tool, and impress the jacketed disk against the ring's self-adhesive backing. Disk-Pro-Tek, by the way, is the only kit on the market that offers you both this precision tool and Mylar-strong O-rings.

Disk-Pro-Tek Applicator Tool made of precision-milled aluminum

Stage A of tool centers diskette for accurate placement of reinforcing ring.



Stage B of tool assures smooth, positive adhesion of reinforcing ring.



Disk-Pro-Tek kit. Includes 2 part applicator tool, 20 reinforcing rings, and complete instructions. For regular or minifloppies.

Item #	Price each
5423	$24.95

Disk-Pro-Tek rings. Package of 20.

Item #	Price each
5429	$4.50

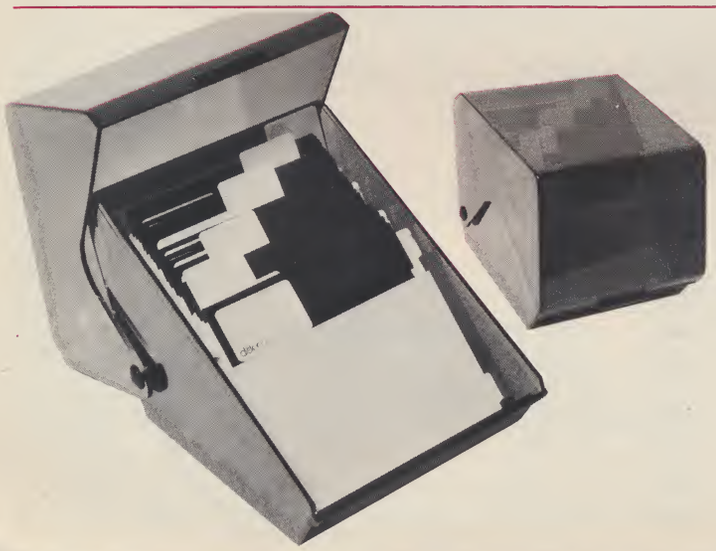
How to keep your floppy drive operating at peak performance

FD-08 Floppy Drive Head Cleaning Kit Stops Read/Write Errors and Saves Expensive Service Calls

Floppy Drive Heads require regular cleaning to prevent read/write errors and excessive head wear. Until now, that meant expensive service calls and downtime. But finally you can clean read/write heads yourself in just 30 seconds with no tools, no disassembly, no field engineers. Just saturate the cleaning element through the cut-out in its jacket, insert the jacket into the drive, and turn it on. Your heads will be completely cleansed of dirt, dust, and magnetic oxide build-up. The FD-08 can be used by anyone who can insert a disk and is absolutely safe—even if left in the drive for extended periods of time. Its been tested, evaluated and approved by major diskette manufacturers. Designed for use with single and dual-sided drives using standard ANSI-type jackets, it's compatible with virtually every drive on the market except Burrough's B-80 and 3.6 MB Super-Mini Drives, and Vydec 1200, 1400, and 4400 (Memorex 651) drives. Each kit contains everything you need for 30 cleanings. (Note: Manufacturer recommends a maximum of 15 cleaning cycles per cleaning disk.)

Item #5430 **Price $30.00 ea**

NEW! Cleaning kit for minidiskette drives:
Item #5433 **Price $30.00 ea.**



Flip Sort

Functional, attractive desktop storage for up to 60 floppies

Ideal! Finally, you can have what you've been looking for in desktop floppy storage. Easy filing, easy retrieval. Flip the lid up: access up to 60 floppies; flip the lid down: you have dust tight storage plus an attractive desk accessory. Included indexes speed retrieval and flip-up lid doubles as a carrying handle.

The Flip Sort is formed from a transparent smoke colored, durable acrylic. Choose from two sizes, for regular or minifloppy disks.

		Price Each

5437	Mini Floppy Flip Sort	34.95	32.50

140′ and 300′ Data Cartridges

Fully compatible, guaranteed performers

These Verbatim Data cartridges incorporate precision computer-grade tape and components for high data reliability and long life. All of the below cartridges are individually tested to meet or exceed all ANSI/ECMA and ISO standards.

140′ Mini Data Cartridges—An advanced cartridge design incorporates polymer shell halves to provide structural stability and strength. By using polymer plastic instead of the metal base plate normally found on mini data cartridges, the hazards of warps, dents, and static build-up are drastically reduced. They're fully compatible with 3M DC-100A and HP 9162-0061 cartridges.

300′ Quarter-Inch Data Cartridges—A seamless, iso-elastic drive belt controls all tape motion and keeps tape tension constant, while a sophisticated roller and hub retaining system reduce skew and bit-to-bit jitter. Cartridges are easy to load and manually operable to provide internal file protection. They're fully compatible and interchangeable with IBM 5100 and 3M DC-300A cartridges. Also for users of IMB 5110, NCR 1-8100 Series, Spectron Data Scope, Tektronix.

Item #	Description	Price Each 1	10	50+
5502	TC-150 Mini Data Cartridge	$16.95	16.50	15.95
5500	TC-1200 300′ Data Cartridge	22.95	22.50	21.95
5501*	TC-2000 300′ Data Cartridge	23.95	23.50	22.95

*for parallel/serial recording and higher density formats; 100% error free.

Each cartridge is individually tested to meet stringent specifications.

Digital Cassette and Data Cartridge one year guarantee

Every Verbatim data cartridge you buy from Devoke is guaranteed to be free of defects in materials and workmanship for one year from the date of shipment. If you should ever receive a defective cartridge, please notify us immediately—we'll replace it at no charge. Sorry, we cannot assume responsibility for damage due to accident, abuse, or mishandling.

Digital Cassettes are 100% error-free and guaranteed for a full year!

Look no further for a reliable source of high quality digital cassettes—cassettes designed to provide your system with the highest possible media performance and reliability. Here are some of the important features found in all Devoke cassettes:

- Precision computer-grade tape certified 100% error-free.
- Pressure pads with low-drag, non-debris-generating surface maintain exacting pressure and accommodate read-after-write heads.
- Corner rollers specifically designed for ultra-smooth tape guidance with minimal friction.
- Rigid, anti-warp case construction.
- Cassettes meet or exceed all ANSI/ECMA/ISO standards.

Select the cassettes you need from the compatibility chart below. If your system is not listed, contact Devoke for proper compatibility.

Cassette & Cartridge Lock Cases

Pull down the door and up to 70 boxed cassettes with indexing come into view. Door lowers and slides into base of unit. Cassettes are housed in staggered compartments for easy retrieval. Case is finished in woodgrain. Metal door is faced with Black vinyl. Lock cases can be wall-hung, shelved or stacked 3 high. Two keys supplied for lock for concealed, secured storage. Dimensions: 23½ "W x 12¼ "H x 9½ "D. Shipping wt. 15 lbs.

ALSO AVAILABLE FOR DATA CARTRIDGES (3M DC300-A type). Same case as above, but fitted inside to hold 40 unboxed cartridges.

			Price each
Item #	1	2	4 & up
9373 Cassettes	$87.50	86.00	84.50
5416 Cartridges	85.50	84.00	82.50

Cases & Ring Binders

Snap-in cassette trays are electronically sealed inside vinyl covers. Compartments maintain a firm hold on cassettes, prevent hub rotation. Cases click shut for dust-free storage. Binders have standard 3-ring metals, 1″ capacity to hold related reference materials. Select to hold 6 or 12 cassettes.

COLOR: Black					Price each
Item #	Capacity	3 (Min)	6	12	24

Note: System accepts *boxed cartridges*. Boxes may be ordered at left. For users of 3M DC 100A type cartridges, used in HP desktop calculators and 2600 series terminals, TI Silent 700 printer, and others.

How to buy high quality printwheels and get guaranteed performance—fast. Call (415) 494-8844

Built-in quality. Quality reflected in standard features like reinforced hub/spoke stress points, raised underscore, and a metal-capped period. They're precision injection molded of high impact plastic to produce letter-quality printout. And their rugged construction will keep giving you sharp, clean characters for up to one million impressions per character.

Next day shipment. We know how important it is to keep your printer up and running. So we make sure we're well stocked and ready to ship at all times.

Guaranteed. All our Daisy printwheels are guaranteed to meet or exceed manufacturer's specifications, and to be free of defects in materials and workmanship. And of course they're backed by our 100% satisfaction guarantee which you'll find on the inside front cover of this catalog. Note: plastic and metal printwheels are not interchangeable.

The finest fabric & precise inking combined to give you a sharp, clear impression every time!

Now you can have it all — the best possible ribbon for your printer at less than you'd expect to pay! Every ribbon we offer you must meet or exceed **all** specifications set forth by the manufacturer of your printer. We're so sure you'll like our ribbons that we **unconditionally guarantee** them to work as well or better than what you are presently using.

We can make this guarantee because of the quality, performance, and durability built into every one of these ribbons. It all starts with the finest nylon impression fabrics available. The fabric is woven in a way that optimizes ink retention and release characteristics, yet still stands up to the repeated pounding of your printer. This weave creates a capillary action which assures print consistency and clarity. And the fabric is precision cut and heat sealed to prevent fraying. Next, the ink used is of a matrix formulation that balances and homogenizes color pigment with toner. Then the ink is impregnated into the fabric at the specific percentage required by your particular printer. And lastly, strict inventory control allows us to guarantee that every ribbon you purchase from Devoke is "factory fresh" to deliver consistent, reliable performance.

Use the chart below to find the correct ribbon for your machine. If your printer is not listed, call us at (415) 494-8844 and we'll find the ribbon you need.

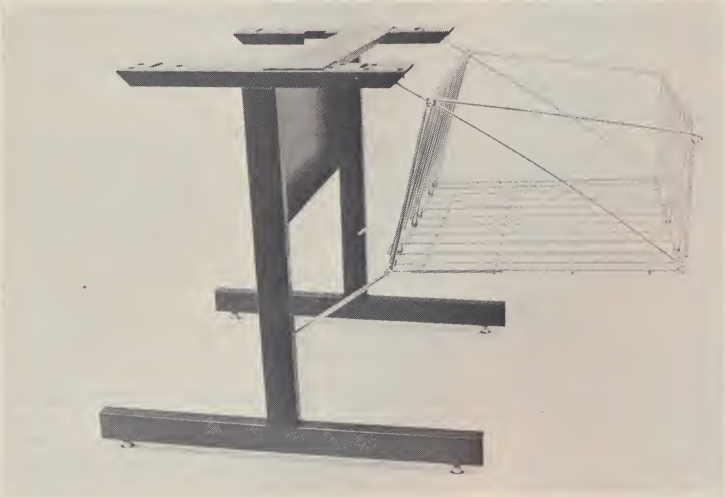
Universal Printer Stand

FITS ALL THESE PRINTERS: Centronics, Diablo 1600 and 2300 series, La Decwriter 34, Lear Siegler 300, NEC Spinwriter, Okidata Slimline, and T.I. 810 and 820.



Proper balance, support, and paper feeding of your printer is prerequisite for top printer performance. Our new printer stands provide not only maximum structural support with bolt-on stability, but smooth paper feed via a built-in paper basket. Paper Basket is made of heavy gauge welded wire to hold a full box of paper weighing up to 60 lbs. In addition to improved printer performance, your computer room will look cleaner, more professional. Shipped knocked down to save freight, assembly takes only 10 minutes and a standard screwdriver. Printer bolts directly to stand through pre-drilled holes in frame. Dimensions: 24″H × 24″W × 25″D.

Mobile Forms Rack

Ease paper handling problems with this rugged workhorse

Two products in one!—

A forms rack and a paper dolly

Here's the best way we've found to handle paper feeding and catching hassles at your printer. Compact forms rack holds feed paper on lower shelf, and output paper on top shelf. A cleverly designed paper guide assures smooth stacking of output printout and also serves as a convenient handle for portability. So you get two products in one—a forms rack and a paper dolly! Rack is heavy gauge chromeplated wire with locking casters. Streamline your computer room—order several!

5449	Mobile Forms Rack	$82.50	79.00

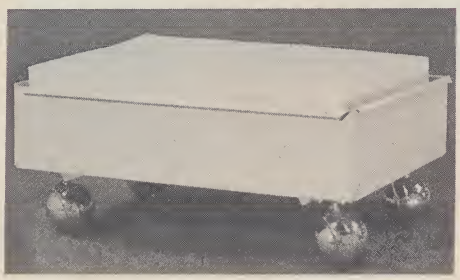
The Transporter™ makes light work out of heavy paper

Moving stacks of heavy printout paper is a tough chore, tough not only when you do it by hand, but also when you do it in a cart that's not really made for the task.

You'll move forms easily and quickly with Devoke's Transporter™ because it was designed with data room conditions in mind. Check these features:

• **Durable, 22-gauge steel construction.** You'll probably never put more than a forty-five pound stack in the Transporter™ at one time, but no matter if you did. It's built to carry up to 4½ times that weight.

• **Heavy-duty 2½″ Shepard ball casters.** Do printers and other standing equipment create tough corners for you to turn? No problem. The smooth swivel action of these casters will let you move easily around any roadblocks you might encounter. Do you move paper from a room with a tile floor to one that's carpeted? These casters will move with ease on **any** surface.

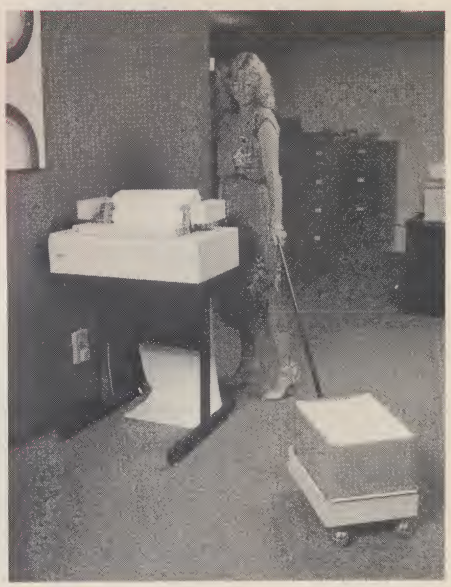


• **A heavy gauge, tubular steel drawbar.** The unique "sure grip" edge of this drawbar attaches easily and positively to any side of the Transporter™. That makes any side the front, a feature you'll appreciate when confronted by the one-way streets that standing equipment can create. This drawbar pulls, pushes, and turns with equal ease. Do you need two or three Transporters™ for the same work area? One drawbar may be enough.

The Transporter™ has a durable, baked-enamel finish that resists oxidation. The Transporter™ itself is beige, the drawbar black. Inside dimensions: 15¾″ x 12¼″ x 3¾″.

Devoke's Transporter™: Remarkable quality. Unchallenged durability.

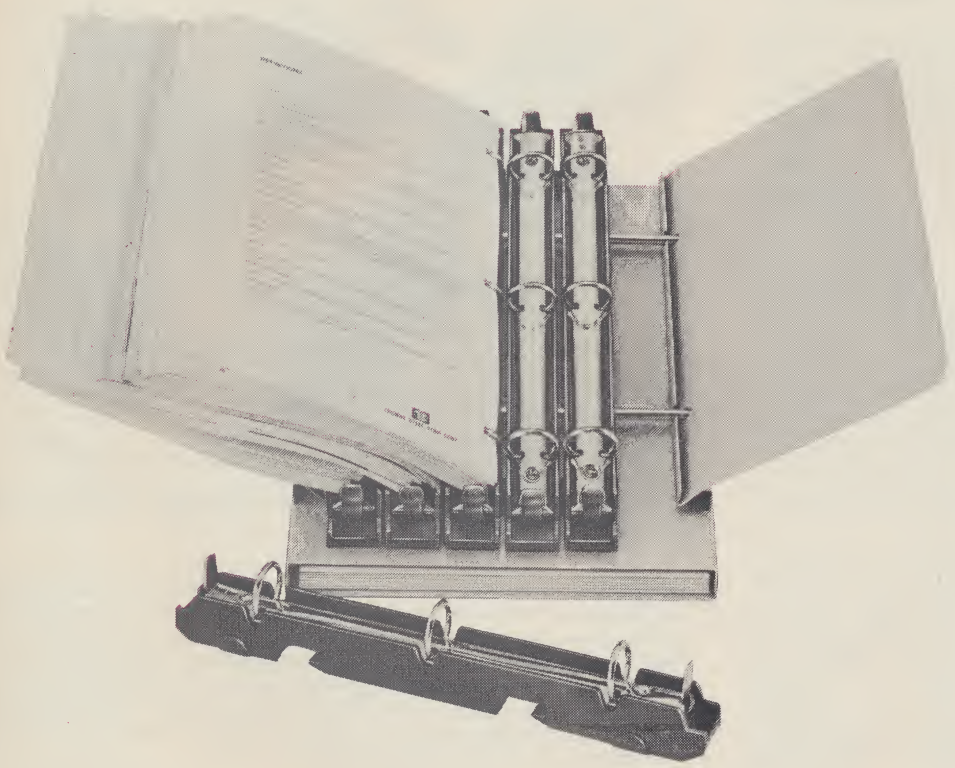
Item #	Price each
5431 - Transporter™	$69.95
5432 - Drawbar	17.95



You'll move bulk paper easily and efficiently with Devoke's Transporter™.

Keep printed materials at your fingertips

For Catalogs, Manuals, Parts Lists and More.



3-Ring Reference Rack

Just snap open rings—there's no need to remove complete channels with this handy reference rack. When rack is underloaded, channels will also slide back and forth across the base unit to allow more space for access to information.

Basic unit holds six 1″ ring channels. Unlimited expansion is possible by adding 6″ extensions to the rack. If used for confidential information, each ring channel can be removed and dropped into a file drawer; built-in hanger tabs fit suspension frames.

Rack adjusts to 30° or 45° for sitdown or standup reference. It's made of 20-gauge steel, baked enamel finish in Putty, with rubber feet for stability and scar-free use. Loose papers can be collected in handy storage compartment at the base. Ideal for computer rooms, service departments, parts stores, reservation desks, catalog libraries—anywhere there's need for fast reference.

Item #		Price Each
9356	Complete basic unit	$54.95
9357	6″ Extension	25.50
9358	Pkg/6 Ring Channels	25.80
9359	Locking Bar	16.55

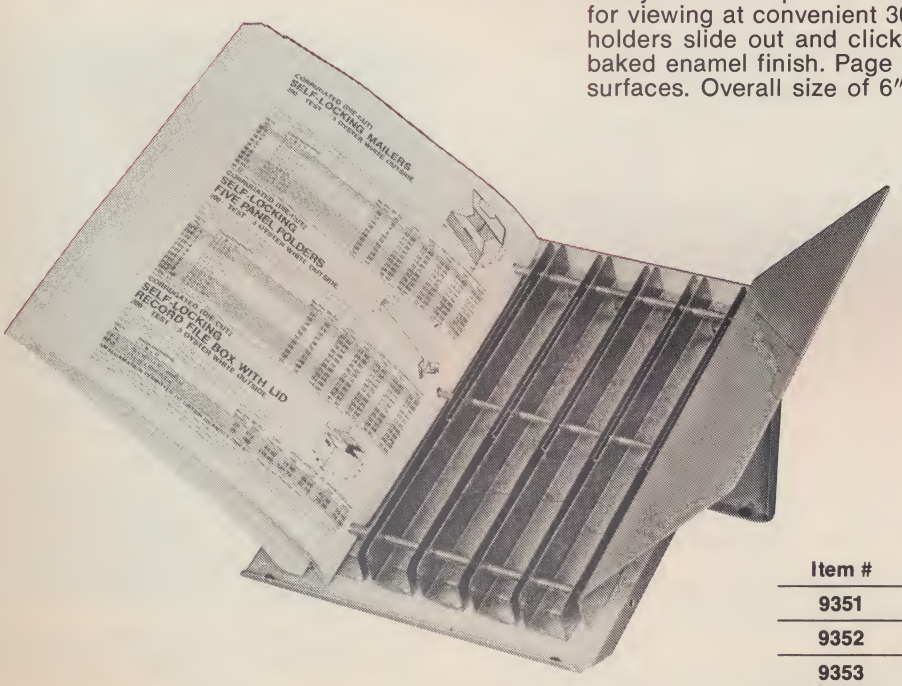
Lock boosters on each ring assembly prevents pages from falling out.

Optional locking bar secures ring channels in rack.

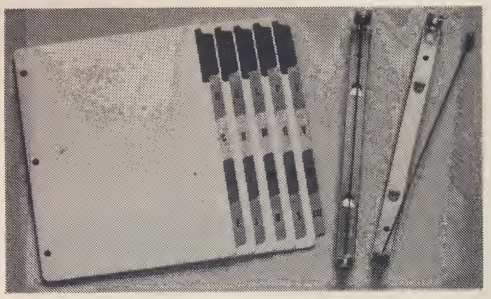
Rack adjusts to 30° or 45° for sitdown/standup use.

Post Reference Rack

For any material under constant reference, it's hard to beat this rack for utility. It holds up to 6″ of standard, 3-hole punched sheets of paper, ready for viewing at convenient 30° angle. Material is easy to insert, change; page holders slide out and click back into position easily. Rack is all metal, with baked enamel finish. Page holders are chromed. Rubber feet grip and protect surfaces. Overall size of 6″ capacity rack, as shown, is 10⅝ x 18½ x 8⅝″.



Expand the basic rack to fit your needs. #9352 Base Extension adds 6″ capacity, requires #9352 Page Holders or #9354 Book Holders. Then add #9355 Mylar reinforced A-Z Index Dividers to aid retrieval.



Item #		Price Each
9351	Complete basic unit	$27.75
9352	6″ Base Extension	11.15
9353	Pkg. of 6 Page Holders	16.65
9354	Pkg. of 6 Book Holders	13.50
9355	Set of 25 A-Z Indexes	6.65

Use Page Holders for 3-hole punched material
Use Book Holders for pre-bound unpunched material

Data Carts

Save Sorting and Resorting Time

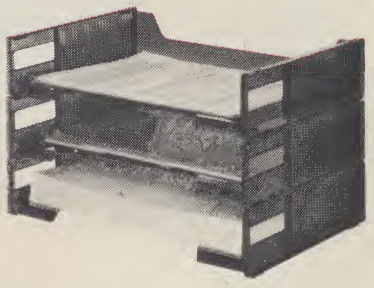
You'll appreciate the great mobility of this 7-tray cart that holds up to 4000 printout sheets, bound or unbound. Compartments are made of high-impact plastic that won't dent, rust or cut.

Rigid top is designed so you can add more trays to the same mobile base. (See extra trays at right.) Overall cart size is 27⅞"H x 12½"D x 16⅞"W. Trays, with 2 label areas, hold items up to 14⅞ x 11". Trays are Black, top is finished in woodgrain, frame is satin-finished aluminum. Easy-roll casters included.

When data is coming off printers, decollators or bursters, Data Cart can be rolled up to receive, then rolled away for distribution. It eliminates bulky piles of reports too heavy to handle, saves time wasted by re-sorting.

Item #5363—$89.95 each
2 or more— 87.50 each

Wide Track Stack Trays



Use to add capacity to Data Cart shown at left, or stack where needed for desktop use. B-I-G 12 x 16" size in Smoke colored translucent plastic interlocks to stack as high as you like. Six trays per carton.

	Price per carton		
Item #	1 ctn.	2 ctns.	4 ctns.
9320	$40.25	39.95	38.50

Data Printout Shelf Unit

Select 18 or 36 compartments

Gain extra storage space with this rack that fits neatly into busy areas—it's only 12" deep. In both the large and smaller unit, each compartment is 16½"W x 11¼"D and 3¼"H so a lot of printout can slide into each space division.

Sturdy 200 lb. test corrugated cardboard dividers and trim blend with Black steel shelves and posts. Dividers are reinforced with Black plastic molding. Units are shipped unassembled.

		Price Each
Item #	Overall Size	No. of Bins
5861	37"H x 37"W x 12"D	18 $ 79.95
5862	74"H x 3"W x 12"D	36 129.95

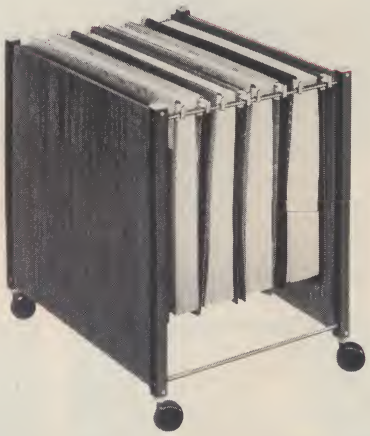
DP Rolling Rack

Includes 4 DP binders



Compact, convenient and complete! Roll-around rack stores a lot of data in a scant 1½ sq. ft. of floor space, moves easily where needed. It's made of Black tubular steel for strength, with woodgrain vinyl sides for good looks. Package includes 4 pressboard binders in 4 different colors, which hold up to 3600 unburst printout sheets 14⅞ x 11". Follow the simple assembly instructions and it's ready to roll. For desk-top use order #5399, without casters.

	Price Each	
Item #	1	4 or more
5365—w/4 casters	$68.50	66.50
5399—no casters	59.95	59.00

3-Way Data Rack

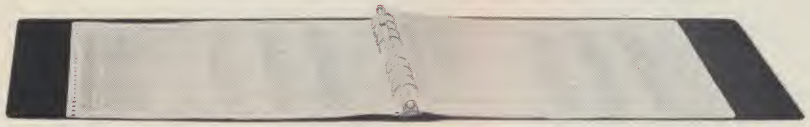
For drop filing, lateral filing, or single-point filing

Total versatility! Drop them in, slide them in, or hang by single-point suspension—these modular data racks adapt to your needs. For drop or lateral filing, position rack with two metal railings at top; for single-point suspension, flip the rack over so the single rail is at top. Stacked as a pyramid (see photo), you get 4 file areas from 3 racks by filing under the center rack. Racks are made of walnut-finished wood with black metal frames. Each rack is 23½"H × 20½"D.

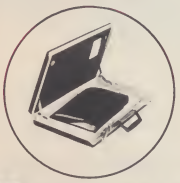
Item #	Description	Price each
5100	24" Rack	$140.00
5101	36" Rack	150.00
5102	Set/4 Casters	22.00
5103	Handle/Hangers*	2.95
5104	Channels*	3.80

*Note: Handle/Hangers adapt binders without built-in suspension hooks and are required on all binders for "slide-in", lateral filing. Slide-in filing channels are also required for lateral filing.

Data Rack system oraganizes printout to provide maximum access and storage efficiency.



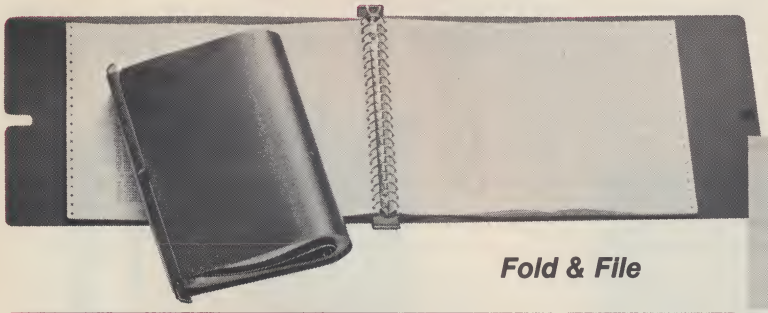
Fold & Go



Fold & Go Data Binders
Fold & File Data Binders

Condense DP Printout Without Creasing Paper

You who handle data reports will welcome these bright ideas—binders that fold over at the center. As simply as that they reduce the expanse of printouts so they easily slip into brief cases, file drawers, and are more convenient to carry by hand. Even when the 1" rings are loaded to a 200-sheet capacity, the thin data paper and flexible Polyoak covers will fold over, then lay flat without creasing. Lighten your load! Binders alone weigh 10 oz., hold burst sheets up to 11 × 14-7/8". Thin-line metal rings have open/close boosters. Fold & File has a hanging rod plus a fold-to-fasten Velcro® closure.



Fold & File

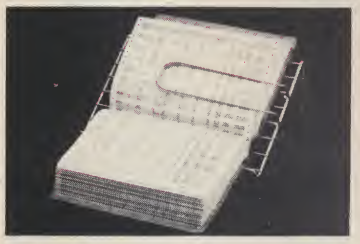
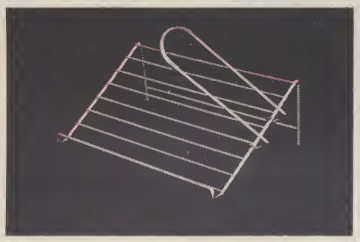
Print-Out Reader Rack



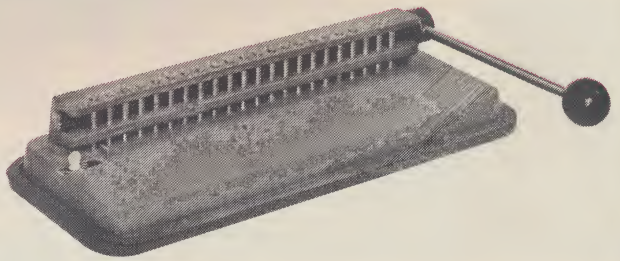


When you work with top-bound data reports you can use some help! This rack lets you refer to upper pages with hands-off convenience. It has a slanted surface for easy reading angle and a hold-down arm keeps pages open. Arm easily swings out of the way to permit turning of pages. It's plastic-tipped to prevent sliding. Works with both clamp and post DP binders. Overall size is 15⅜"W x 10⅜"D x 5⅜"H.

			Price each
Item #	2(Min)	4	8
5105	$10.75	10.25	9.75

22-Hole Punch

File Regular Paper with Printout



We know the frustration when you need to file regular sheets of paper along with data printout. This aid offers a practical solution. Precision ground punches make 22 holes at a time, spaced ½" center-to-center to fit any DP ring binder. Holes are ¼" diameter; punch operates with manual lever.

Item #5326 $165.00

Popular Pressboard DP Binders

These are the workhorses of data retention—genuine 20 pt. Pressboard Binders that load from top or bottom so you can change contents efficiently. Big capacity: flexible polycoated steel cables bind as much as an 8″ stack of printout. Cables are cinched tight by slide hooks that push out to provide for hanging.

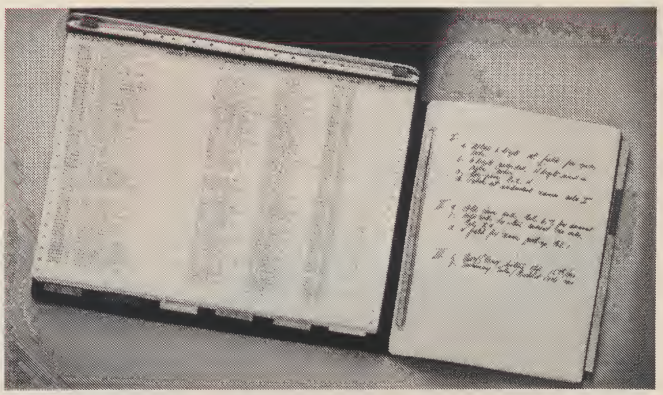
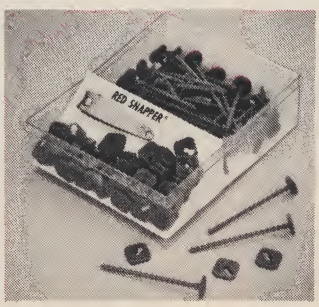
Program Documentation Binder



Put source listings, error codes, operational procedures and other reference information between 2 covers, and you'll save both programmer and operator time. This binder was built for the purpose: Basic nylon post binder holds unburst printed program sheets 14⅞ x 11″. A fold-out extension of the back cover has a prong fastener and five index dividers for filing and securing support documents on 11 x 8½″ sheets. Loss or separation of vital data stops here!

Item #	1	Price Each 5	10
5315	$8.85	$8.55	$8.30

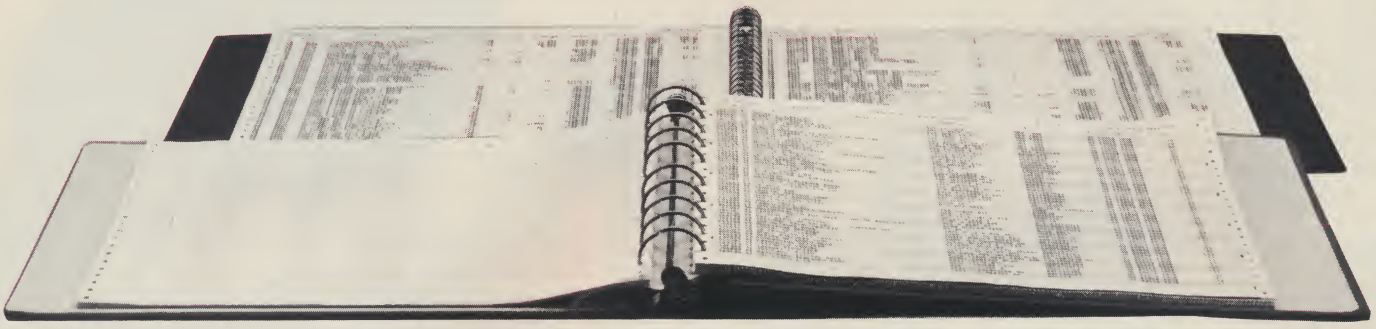
DP Snap Fasteners



For low-cost binding of low-use reports, flexible plastic posts will contain up to 225 sheets of printout. Thread post through forms, lock on button, snip off excess with clipper provided. Great way to protect from unwanted bursts in reports being shipped. Box contains 50 posts and buttons, 1 clipper.

Item #	2	Price each 10	20
5398	$5.50	5.25	5.10

Data Ring Binders



(Measurement at binding edge shown first)

Standard 1" Capacity

If you prefer rigid covers for burst reports, here are 3 sizes with very thin rings so pages turn easily. All are 1" capacity to hold up to 200 sheets of printout. #9033 is available in both Black and Navy Blue; #9034 in Black only, and #9065 in Navy Blue only. Covers are made of .055 Poly Oak and rings have open/close levers.

		Price each			
Item #	for Sheet Size	6 (Min.)	12	25	50
9033	11 x 14⅞"	$6.65	6.55	6.25	5.95
9034	11 x 8½"	5.40	5.30	5.00	4.70
9065	11 x 10"	5.45	5.35	5.05	4.75

Heavy Duty 1½" Capacity

Constructed for years of use: supported vinyl over heavy boards with metal hinges. Nickel-plated locking mechanism, tempered steel rings, open/close boosters, sheet lifters.

Color: Medium Blue		Price Each		
Item #	Sheet Size	1	12	48
5130	8½ x 11¾	$20.10	$19.80	$19.55
5131	8½ x 14⅞	24.15	23.65	23.05

Data Clamp Binders

Easy in, easy out — these printout binders are a breeze to use. All-steel spring-loaded clamp firmly locks or quickly releases data forms. Binder holds reports of different sizes at the same time — a time, cost and space-saving feature. Particularly useful for short-term reports. Covers are .023 Polyoak for years of use. Capacity is 1" (about 200 sheets).

COLOR: Light Blue				Price each

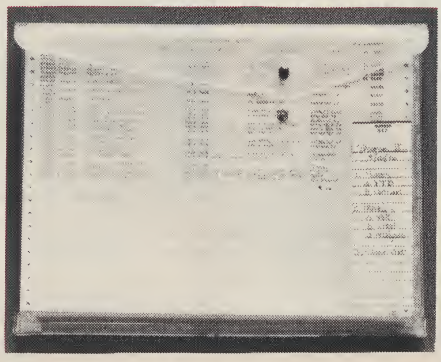
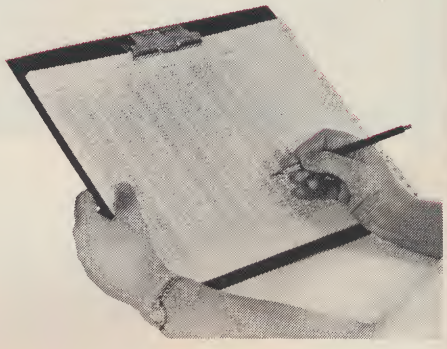
Data Batch Bags



Here's a convenient way to transport or transmit quantities of data. These see-through heavyweight vinyl portfolios expand up to 1¾" to hold printouts 11 x 14⅞" or smaller. Flaps snap closed in 2 positions so you can safely handle full loads or less. Outside pocket holds your index, routing instructions or notes. Heat-welded construction for long service. You'll find these bags not only neat, compact containment for print runs, but great for handling batches of odd-size related work papers.

				Price each	
Item #	6(Min)	12	25	50	100
9362	$5.25	5.05	4.95	4.75	4.60

Data Clipboard



For reviewing short runs, or for stand-up tasks such as checking inventory, Data Clipboard provides both a temporary binding and a working surface. It's made of vinyl-covered binder board; metal clip holds up to 50 sheets 11 x 14⅞". An efficient working aid anywhere you need containment of printout with flip-up access to every page. Color: Medium Blue.

Mag Tape Racks

Ideal solution for active or inactive magnetic tape storage! New, higher capacity!

- **Increased capacity per square foot**
- **Easy access**
- **Attractive styling**

Safely store up to 72 hanging tapes per square foot of floor space! Notched channels hold tapes securely yet provide easy retrieval. Each notched channel is adjustable up and down on frame. Units are six levels high and easily expandable by using economical add-on units. Capacity of starter units (#5998) and add-on units (#5999) is 216 tapes each, with 36 tapes per shelf. Sturdy metal construction is finished in baked enamel. Channel shelves are light tan, frame is black.

Item #	Description	Weight	Price
5998	Starter unit	105	$225.00
5999	Add-on unit	93	$180.00

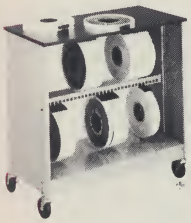
Mag tape racks shipped unassembled to minimize damage and save on freight. Easy assembly requires only standard Phillips screwdriver.

Order Devoke Data Products with confidence! We guarantee your satisfaction.

Mag Tape Trucks

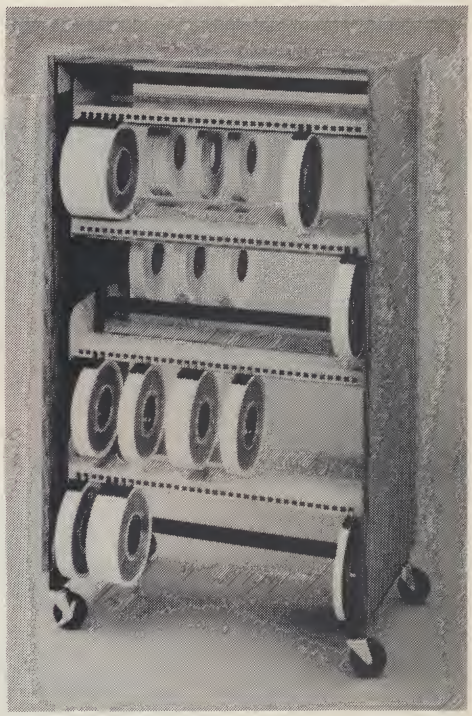
For tape transport and storage

Deluxe tape trucks give you mobile storage for up to 288 hanging tapes. Efficient design permits easy access from front or back. Closed sides and top help protect tapes from bumps and jars that can knock tapes off of standard open trucks. Units move easily between work and storage areas on 4 heavy duty 4" casters—two with locks. Construction—durable metal in beige with plastic laminate tops finished in walnut grain. These trucks will give you years of reliable service!



#5990 Medium capacity truck with counter height top doubles has handy workspace for reference and documentation.

#6001 Large capacity truck puts a whole tape library on wheels!



Item #	Description	Dimensions	Capacity	Price
5990	Medium capacity trunk	38"W x 18"D x 34"H	70	$235.00
6001	Large capacity trunk	38"W x 24"D x 64"H	288	$565.00

Tape trucks shipped unassembled. Easy assembly requires only standard Phillips screwdriver.

Compact Security Cabinet

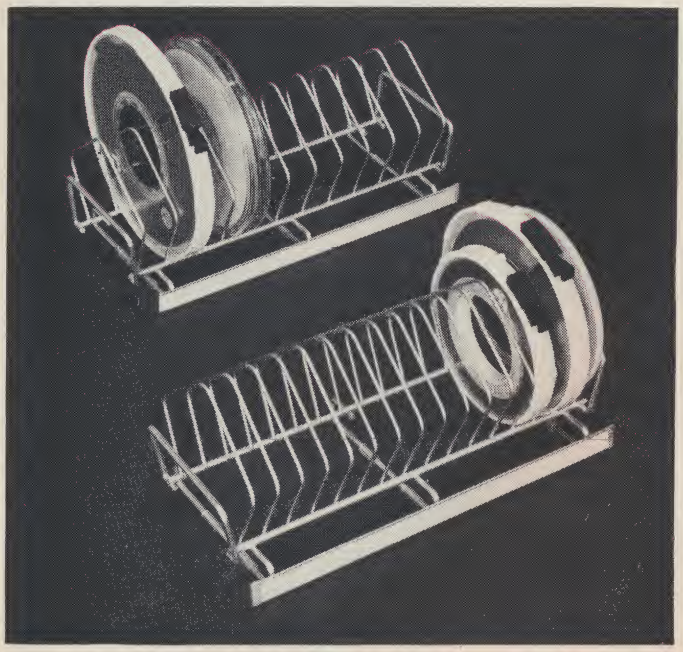
For Hanging Tapes, Printout, and Much More!

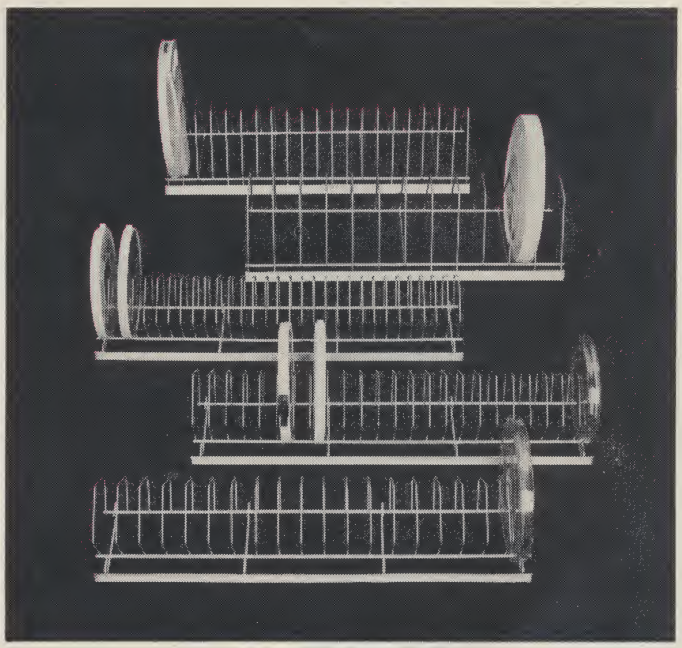
Shipped fully assembled.

Now you can protect confidential data from unauthorized use in our new compact security cabinet. Complete with full length piano hinge doors and 2-point key lock, it holds 28 hanging tapes and has two shelves (1 adjustable center shelf, 1 bottom shelf) for printout, additional media, or other items requiring the security of lock and key. Unit occupies only 3.75 sq. ft. of floor space and features 2" ball casters. Walnut finish plastic top. Durable metal body is finished with baked enamel in your choice of color: Light Tan or Black.

Item #	Dimensions	Weight	Price
5810	30"W x 18"D x 30"H	80 lbs.	$250.00

Custom design your own tape & cartridge storage with these low-cost portable and movable racks





Portable—pick up & go

You don't have to improvise a way to carry these magnetic tape racks — an angled handle is built into each and so they're truly easily portable. Racks are made of heavy duty steel rod to withstand years of use, and they're nickel-chrome plated for a clean, smooth finish. Label holder lets you identify data at a glance for quick storage and retrieval. Clear plastic protectors on feet and other "touch" points eliminate scratches. Select the rack you need for either mag tape or disk cartridges.

Movable or stationary on shelf

These 5 racks give you more storage space per unit than those shown at left. They're movable, but not as easily portable when fully loaded. A welded index strip runs the full rack length, with card and acetate window included to identify each tape or disk. Vinyl feet protect work surfaces, keep racks solidly planted. On furniture tops, on shelves, inside closets—wherever you find the space—these racks are a low-low-low-cost alternative to custom cabinets. Built to last of heavy gauge steel wire, zinc plated.

#5905

Versatile filing system accommodates diskettes, hanging file folders, and data binders in a mobile, lockable unit.

Store your data printout, magnetic media and general office records all in one system with this versatile, mobile security cabinet.

Adjust the interior filing space to suit your exact needs—accommodate any combination of various-sized data binders, hard copy documentation, and floppy disks, as well as letter and legal size hanging file folders.

Designed with convenience in mind, lockable top lifts up and slides out of the way behind unit. Portability on ball casters is particularly useful when more than one person accesses the data, or when data is not in constant use.

Interior storage area has a 27" filing capacity. The cabinet's handsome exterior features a rich walnut woodgrain top, putty body, and attractive chrome accents. The top locks securely and can serve as a convenient extra work area.

Interior storage area has a 27" filing capacity and durable steel construction assures years of service. Dim.: 34½"W x 24"D x 26½"H.

Slip this hanging diskette file right into your Mobile Security Cabinet. Handly file organizes up to 80 diskettes and has five reference dividers for day-of-the-week classification. Even when the file is full, diskettes lie at a slant for good visibility, quick access. Dim.: 12½"W x 10½"D x 9½"H.

Use this handy diskette file alone or as part of your total filing system.

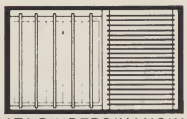
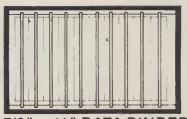
DATA BINDERS/HANGING FILE FOLDERS/DISKETTE FILE

11" x 8-1/2" DATA BINDERS



DATA BINDERS/HANGING FILE FOLDERS



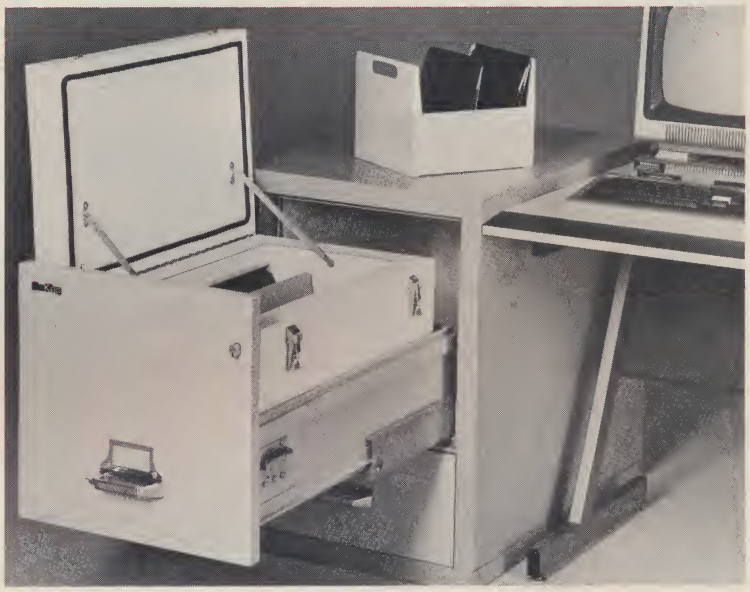
14-7/8" x 11" DATA BINDERS

Insulated Diskette Safe protects the data that keeps you in business

A business burns once every four minutes somewhere in the United States. The National Fire Protection Association reports that nine out of ten business fires result in the total loss of unprotected business records.

Diskette based computer users should not rely on traditional fire protection measures—fireproof buildings, sprinklers or gas extinguishing systems—to protect their valuable EDP media from fire damage. Such measures DO NOT assure adequate fire, heat and humidity protection for vulnerable diskettes or tapes. Diskettes require a higher degree of fire protection than paper or other computer media. Manufacturers specify a maximum temperature of 125 degrees with 80 percent relative humidity. This diskette safe has undergone tests with outside temperatures reaching 1700 degrees Farenheit and at the end of an hour the top drawer was well within critical limits. The smaller bottom drawer was tested to remain below 350 degrees Farenheit, which is the charring point of paper, offering fire protection for paper records awaiting computer input. It's sized and styled right to fit in the office or computer environment, at the point of need.

File is available with removable trays to house mini-diskettes, cassettes, microfilm and microfiche, as well as diskettes. A key lock controlling both drawers is standard. The inner container is standard with right hand hinge. Please specify if left hand hinge is required. Color of safe and options: Putty.



Item #	Description	Capacity	Size	Price Each
5462	Insulated File	2 Drawer	20¾W x 30D x 27⅞H	$1,375.00
5463	8" Diskette Tray	125/Diskettes/Tray 2 Trays/Drawer	9W x 10½D x 8½H	55.00
5464	5" Diskette Tray	125/Diskettes/Tray 6 Trays/Drawer	6W x 10½D x 5½H	45.00
5465	Microfilm/Digital Cassette Tray	Holds 10" of Microfilm Cartridges/Tray 8 Trays/Drawer	4⁵⁄₁₆W x 10½D x 4¾H	50.00
5466	Microfiche Tray	Holds 10" of Fiche or Cassettes/Tray 6 Trays/Drawer	6⅛W x 10½D x 4⅞H	50.00

Why EDP Media & Microfilm Need Special Fire Protection

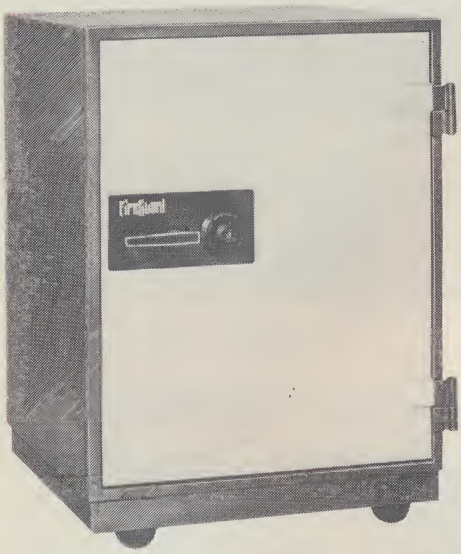
Conventional fireproof safes are insulated to create a "steam bath" effect when exposed to fire. **This humidity protects paper documents, but can actually destroy magnetic media and microfilm faster than the fire itself!** (Example: DP media are damaged beyond use at temperatures above 150°F or by a combination of temperature above 120°F and humidity above 85%.)

Heat/Humidity Levels UL Tested and Certified

Each Fireguard Media Safe carries the UL Class 150-1 hr. label for fire endurance, humidity, impact and explosion hazards. UL tests confirmed interior temperatures remained below 150°F and humidity below 85% when units were exposed to temperatures reaching 1700°F in 1-hr. Certification also includes survival of 30-ft. drop after ½-hr. heating to 1550°F and no generation of explosive gases after ½-hr. heating to 2000°F.

On-Site Protection Needed

Fireguard on-site eliminates the need for off-site backup files. That means and end to inconvenience and added costs associated with time-consuming updating and inherent "information lag." Fireproof rooms, sprinkler systems, or gas extinguishing systems can protect buildings, furniture, and most equipment. But they DO NOT assure adequate fire, heat and humidity protection for vulnerable EDP media and Microfilm.



#5875

FIREGUARD® Media Safe *Protection for vital records!*

Fireguard requires only 6.75 square feet of floor space, yet its roomy interior will accommodate up to 50% more media than comparably sized EDP safes. Fireguard's variety of interior components will handle all media, allowing you to "customize" the interior to meet your present needs and make future changes as necessary.

Outer walls are constructed of heavy-gauge steel on an extra strength frame. Patented insulation system delivers maximum protection and security with lightweight walls and easy mobility. There is also an inner repository which protects media from humidity. Security is assured with a Group 2 key-change combination lock and a U.L. certified relocking device to set the bolts if the lock is punched in a burglary attempt. Four steel locking bolts mount a formidable defense against forced entry. Optional X-ray-proof locks or key-locking combination dials provide added security against theft or willful destruction.

Fireguard's attractive styling blends nicely with other computer room furniture. Door is off-white with safe body available in IBM Red or Blue, Gray, Charcoal, Tan, Olive, or Nile Green (specify when ordering).

Computer Fire Extinguisher won't damage your computer or media

- **Highest Ratings in Industry**
- **Multi-Purpose-Clean Agent**
- **Nonconductor of Electricity**
- **Leaves No Mess or Residue**
- **Minimal Thermal Shock**
- **3 Times the Range of Other Clean Agents**

Now: a new fire extinguisher that's ideal for Computer Room protection. It's ideal because of its unique new extinguishing agent—Halon 1211™, an effective firefighter that's been tested and recognized by Underwriter's Laboratories and the National Fire Protection Agency.

Here's why: It will not conduct electricity. That means you can spray it directly on your hardware without damaging delicate circuitry. Unlike conventional CO_2 extinguishers which discharge at −100°F, our new Halon 1211 Extinguisher discharges at a media and circuitry-safe temperature of 15°-25°F. Halon 1211 is a clean-agent which is non-toxic and leaves absolutely no mess because it evaporates completely. Wall mounting bracket included. A smart investment!

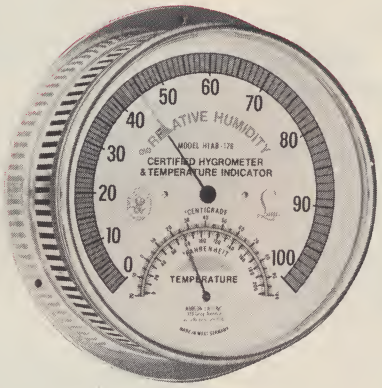
Item #	1	Price each 4 +
5866 (2½ lb. capacity)	$58.00	56.50
For rooms 15′ x 20′ or larger **5867** (5 lb. capacity)	84.00	82.00

Flood alarm warns of surface water plus leaks & drips in computer sub-floor wiring areas

Finally, a dependable and inexpensive way to guard against dangerous water hazards and costly water damage. Just a teaspoon of water beneath WATER ALARM activates its precision electronic water-sensing circuit, setting off a loud (85 decibel) high-pitched warning signal. Warning signal is intermittent, to distinguish it from most smoke alarms, and continues for 48 hours or until reset. Unit features test and reset buttons, solid state circuitry, 100% polypropylene housing, and a low battery indicator. It operates on one standard alkaline cell 9 volt battery, included with unit. No wiring, no tools, no complicated installation. It even floats! Protect your large investment for a small price—order yours today.

Item #5459 **Price $35.00**

Hygrometer reduces downtime by keeping a check on dangerous static electricity



- **Shows humidity**
- **Shows temperature in farenheit *and* centigrade**
- **Easy to read 5″ dial**
- **Certified accurate within ± 3%**
- **Attractive solid brass casing**

Low humidity can promote accumulation of static electricity which causes serious problems for your computer room: everything from paper jams and erratic feeding and stocking to complete system shutdown. A glance at the easy to read dial on this hygrometer will accurately show you humidity **and** temperature, allowing you to take precautionary measures before problems occur.

SPECIFICATIONS: Color differentiated dial with black numbers and lettering, red tipped pointer. Temperature dial range is −20° to 100°C and 0-210°F. Dial is direct reading without any calculations whatsoever. Size 6 inches overall, dial face 5 inches in diameter. Solid brass casing is drilled for wall mounting.

Item #5980 **Price $98.00**

Now it's easy to relocate your CRT's or other terminals

Extension Cables for users of EIA/RS232 compatible equipment

These EIA cables give you total flexibility in the positioning of your terminals. And it's so easy! Just follow these four steps:

1. Select and order the cables you need from the guide at right. (Call us at 415/494-8844.)
2. When your cable arrives, disconnect the EIA connector from the back of your terminal.
3. Connect the extension cable to the original cable.
4. Connect opposite end of extension cable to your relocated terminal.

These cables are quality engineered to provide true "no hassle" service. They feature connectors with gold pins machine crimped at 2½ tons (soldering presents a greater chance of shorted connectors or open connections.) Wire used is 100% shielded to prevent spurious signal interference. It's covered in a white pliable jacket that lays beautifully and looks great.

Ask about our Gender Changers, Null Modems, "Y" cables, and low capacitance cables (for over 100' long). Bulk wire and connectors also available.

Cable Selection Guide

(When ordering specify item#, gender, and length)

Data-only extension. For extending lines 1, 2, 3, and 7 with handshake jumpers. For use with most local terminals.

	Connector Gender Male/ Male	Male/ Female*	Female/ Female	Cable Length	Price Each 1	3	6

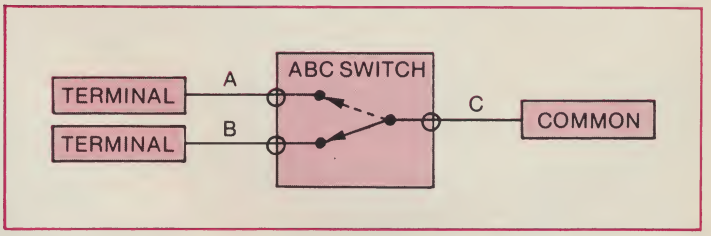
New ABC Box switches any three RS-232 Devices

Doubles utilization of Terminals, Computer Ports, and Modems

Back

Front



ABC Box Switch lets you switch ports without switching all your cables—you save time *and* money.

Save the frustration of manually moving RS-232 cables and cut the cost of unnecessary downtime. The ABC Box switches all 25 leads on the RS-232 interface quickly and easily. Use the 3-way ABC Box in any of the following cases:

1. two terminals but only one modem
2. two terminals but only one computer port
3. two computers that alternately use one printer, terminal, word processor or plotter

NOTE: A null modem is *not required* for any of these applications.

The ABC Box features a positive-action rotary switch for simple line switching with code and speed transparent operation.

Item #5461 $155.00 each

Also available: Switching boxes for 12 leads, boxes to switch between 4 terminals, and coaxial boxes.

Specifications:

Connectors:	3 female DB25S*, all 25 pins wired
Switch:	rotary, self-wiping
Size:	2¼" × 6" × 6½"
Weight:	1 lb.

*Gender changers available; 6" cable with connectors solves interface problems. **# 6599** has 2 male connectors. **# 6600** has 2 female connectors. Price: $33.00 each.

Warranty

The ABC switch is unconditionally warranted against defects in materials and workmanship for a full year. Simply return the product to Devoke and we will replace it free of charge. Sorry, we cannot warrant damage resulting from misuse or abuse. Nor can we assume responsibility for consequential damage.

Key Control System

Hides in a file drawer, secures & organizes 40 keys

Heavy duty key rack is designed especially for use in file cabinets. Two adjustable clamps on back of steel rack attach to any standard file drawer. Heavy numerical index card, 40 numbered key tags, and system instructions included.

Item # 5469 $ 19.95

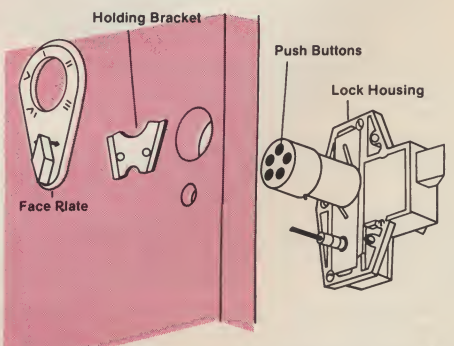
Pushbutton Combination Lock simplifies Computer Room Security

Easy to install and operate, a smart investment!

If you're looking for a simple, yet effective way to add security to your computer room, this lock is the ideal solution. To operate, push the numbered buttons that you preset, (up to five), and turn the latch. To open from the inside, just turn the 2½" lever and pull. Tested to be "pick proof" and "force proof," security is assured without the hassles of key locks. Employee turnover? Change the combination in 60 seconds by using existing combination and a special tool (included).

Unit comes equipped for installation on wood or metal doors and jams, and for left or right hand hinged doors. Installation is easy with included instructions. Dim.: 4" x 5"; fits 1¾" to 2⅛" doors.

Here's how it works



Three piece assembly installs in minutes
Complete instructions included

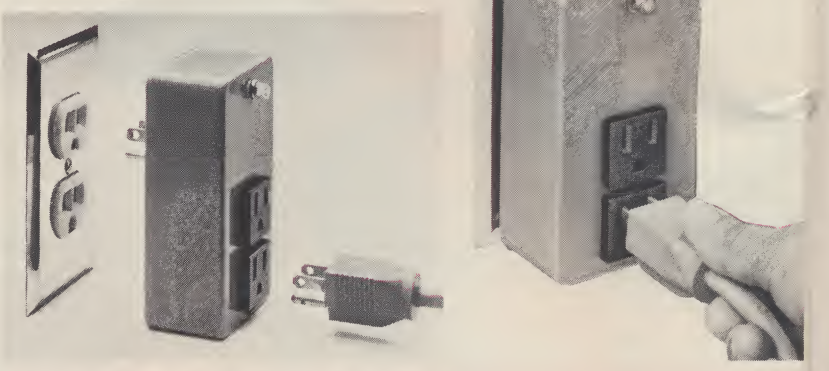
Item #5470 $165.00

Note: Key bypass models also available. Call us at (415) 494-8844 for more information.

Voltage Surge Protector

Protects Minicomputers, Data Entry, and Communications Equipment

• Eliminates "No Trouble Found" Service Calls • Reduces Component Failure



Short surges of high voltage—sometimes in nanoseconds—can cause misregistration, false logic and even destruction of delicate circuits in minicomputers, data entry terminals and other communications equipment. While your equipment is probably fused for **over-current,** it may not be protected from **over-voltage**—particularly distributed equipment located outside the main computer room. Malfunctions caused by these transient voltage surges are often misdiagnosed as equipment malfunction and can cause downtime and several service calls before the true problem is isolated.

Now, with the new Voltage Surge Protector, you can protect your equipment from these destructive power surges that can be caused by inductive load switching of transformers, air conditioners, heaters, and other types of equipment—even by lightning and static. This device "clips" over-voltage transients before they can enter the equipment power supplies. This shunting action, triggered in pico-seconds, can dissipate up to 600,000 watts and prevent the unwanted transient from appearing on the output of power supplies or destroying the power supply itself.

This unit can pay for itself many times over by preventing downtime, lost data, circuit damage and service calls. Simply plug the three-prong 2" unit into a wall outlet, then plug the equipment you want to protect into a receptacle on the surge protector. Peace of mind! A neon light on the unit indicates that it is functioning properly.

Item #5896 **$89.00 each**

Electrical Specifications

Electrical	
Applicable line voltage:	$120V_{rms}$ nominal, 170VP to P nominal
Clamping level:	200V nominal (see table below)
Operating temperature:	−25 to +75°C
Storage temperature:	−50 to +100°C
Operating humidity:	Less than 95% non-condensing
Leakage current:	Less than 1 milliamp
Dynamic short term current:	Greater than 5,000 Amps (see table)
Dynamic response time:	Less than 1 nanosecond (see table)
Failure mode (95%):	Open circuit

Electrical Characteristics

	Stage 1	Stage 2	Units
Clamping level	200 ± 5%	230 ± 15%	Volts
Component clamping response	5×10^{-12}	1×10^{-6}	Seconds
100μ sec power dissipation	1×10^{3}	1×10^{6}	Watts
Dynamic impedance	100	10	Ohms
Rated energy dissipation	.1	100	Joules

Minicomputer Regulator

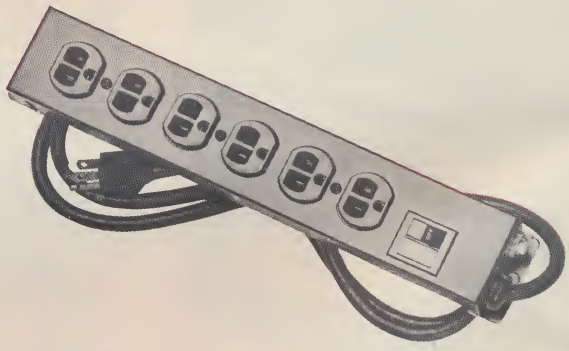
Protects System by Regulating Voltage and Providing Ultra Isolation

In delicate electronic equipment, noise and transients cause errors, while low voltage and short term disruptions can result in loss of memory. Our new Minicomputer Regulator provides instantaneous voltage regulation plus ultra isolation from both transverse and common mode noise for any type of electrical load. It also suppresses transients, protects against overloads, and serves as a portable dedicated line. Common mode noise rejection exceeds 120 db, while transverse noise rejection exceeds 60 db—true isolation. And for brownout protection, input line voltage variations as great as ±15% are instantaneously regulated to a maximum output deviation of ±3%. Simply plug the unit into a wall socket, plug your equipment into one of the unit's dual output receptacles. With a flip of the On/Off switch your equipment is protected. Choose the unit that suits your needs below.

Item #	Max. Output VA Rating	Nominal Output Volt.	Input Volt Range	Price Each
5427	140	120	95-130	$265.00
5428	250	120	95-130	315.00
5468	500	120	95-130	390.00

Power Strips

Put power where you need it



Tap into instant power wherever you need it. Multiple outlet strip plugs into any 110/120 volt outlet, gives you 6 plug-ins for desk or work station equipment. Circuit breaker protects against overloads, has built-in reset button. Off/On switch has light indicator. Double insulated 6-ft. cord has grounded plug. Overall size is 13 x 2 x 1½"; color is Black. Works great attached to the underside of our CRT Stands. Backplate has holes for wall mounting. It's a safer, neater solution to long dangling cords!

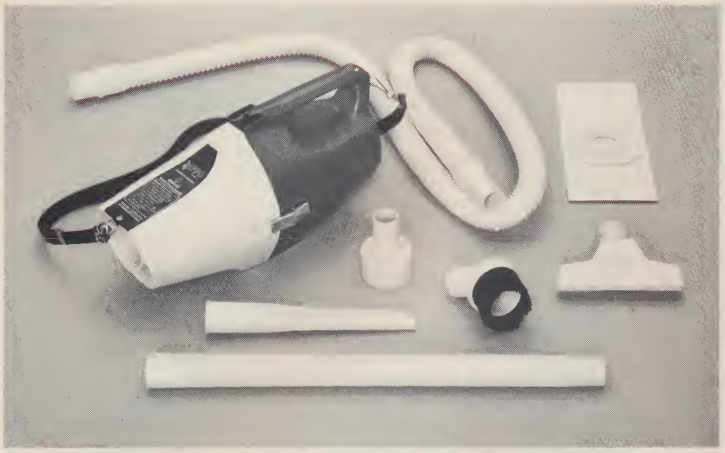
5467	$30.00	28.50	27.00



Portable for decentralized systems

Good housekeeping eliminates costly downtime! Portable Compu-Vac picks up paper chips, dust and other debris from printers, card punchers, disk drive areas, tape racks and related hardware. Works as well with teletype and many other office machines. If you need a blower, simply attach accessories to the exhaust outlet.

This is the same portable vacuum used for years by leading computer manufacturers in their own service departments. It combines easy handling with rugged, dependable power. Housing is unbreakable, guaranteed for life. Dirt capacity is almost 2X that of average portable domestic hand vacuums and the motor is almost twice as powerful. (See specs below.) The 18′ cord lets you cover wide areas from a single outlet. Triple filter (bag + foam + disk) keeps exhaust air filtered clean.

UL & CSA listed; electrical rating 120V, 60Hz, 5.2 amperes, 1 HP (peak), 102 CFM. Weight: 16lbs.

Item #5931 **Portable Compu-Vac** **$96.00 each**
Includes following accessories: 6′ x 1¼″ hose; shoulder strap; 2½″ - 1¼″ adapter; crevice tool; round brush; 1 - 20″ extension wand; 2 paper filter bags.

Item #5932 **Filter Bags, Package of 5** **$6.50/pkg.**

Wall mount for centralized systems

Get the convenience of a built-in vacuum system at a fraction of the cost! A single Hang-Up Compu-Vac in one location can service a roomful of printers, card punchers, plus related hardware and equipment. Removes paper chips, dust, other contaminants from read brushes, cells in card readers, card punch or tab equipment, pin feed and other hard-to-reach areas. It will also keep floors and air conditioning ducts dust free.

Unique mounting bracket attaches to any wall. Vac easily lifts out, can be mounted at additional brackets placed at other needed locations.

UL & CSA listed; electrical rating 120V, 60 Hz, 5.2 amperes, 2 stage, 1.7 HP (peak), 100 CFM, capacity 2½ gallons. Weight: 20 lbs.

Item #5935 **Hang-Up Compu-Vac** **$176.00 each**
Includes following accessories: 18′ x 1¼″ flex hose; 2 -20″ tension wands, crevice tool, round brush, 6″ master head with brush shoe.

Item #5936 **Extra Mounting Brackets** **$6.75 each**

#5937 **Extra Cartridge Filter** **$6.50**

ONE YEAR WARRANTY on Compu-Vacs covers defects in materials and workmanship. Complete Warranty, accessory and supply list shipped with each unit.

Separate both carbon & carbonless forms with portable or stationary decollators

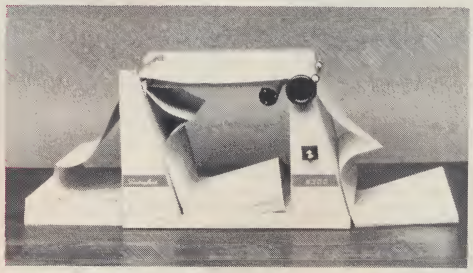
No wasted time with these Swingline decollators! Both take over the messy job of separating printer output whether you're using carbon or carbonless forms. And they do it with great efficiency—no special skills are required to get the job done. Set-up, loading and take-away are fast and easy.

Both decollators have variable speed controls so your operators can regulate paper flow to fit the problem. Both have special triangular stacking wedges to keep forms neatly aligned after separation. Both are attractively finished in Grey pebble finish.

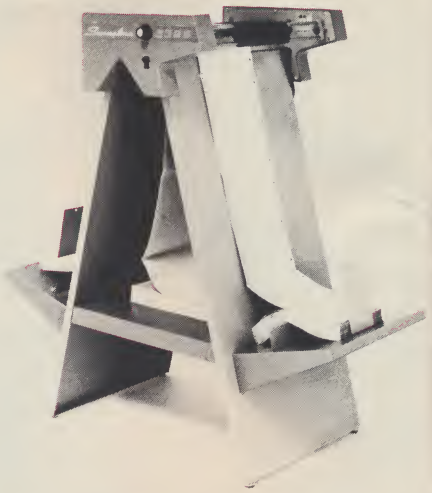
Desktop unit is portable, operates at 75 to 200-ft. per minute, handles about ⅓ carton of 2-part forms per load.

A-Frame unit operates up to 450-ft. per minute, handles full carton lots of 2 to 6 part forms. For feeding carbonless paper at high speeds, a **Paper Control Assembly is recommended. Specify:**

Item #5871 $39.00 each



Item #5869 Tabletop Decollator $525.ea.



Item #5870 A-Frame Decollator $735.ea.

Specifications:	
Form size	up to 15 inches
Paper weight	10 to 110 lb. bond paper (non-glued)
Load capacity	⅓ box standard 2 part forms
Speed	variable-75 to 200-ft per minute
Electrical	Volts-120 AC 60 Hertz Amps-0.2 amp continuous, no load Watts-35 watts continuous, no load Line cord-6 foot, 3 prong ground
Dimensions	24½ "L x 20¾ "W x 16¾ "H
Weight	40 lbs.

Specifications:	
Form size	up to 20 inches
Paper weight	13 to 140 lb. bond paper (non-glued)
Load capacity	Full box 2 to 6-part forms
Speed	0 to 450-ft. per minute
Electrical	Volts-115 AC, 50-60 cycles, 1.2 amps Watts-138 watts continuous, no load Line cord-6 foot, 3 prong ground
Weight	85 lbs. (+ 1.5 lbs. for Paper Control Assembly for carbonless paper)

Multi Purpose Cleaning Kit

Cleans magnetic peripheral devices quickly, safely, efficiently

Smoke, oil, oxide re-deposits and airborne dust particles can cause data disruptions which often damage computer equipment and media. Regular cleaning has become the accepted and recommended solution at most computer sites. But the cleaning materials used are of *vital* importance to the safety of the equipment.

This multipurpose cleaning kit has been designed with two important factors in mind. First, safe use on delicate equipment. The cleaning solution is safe and effective, and dries without a trace. Cleaning wands, mittens and wipes are all lint-free to prevent leaving foreign particles behind.

Included in the kit are two 4-ounce bottles of cleaning solution with an air-tight dispenser cap, 50 lint-free wipes, 10 dual-ended cleaning wands and lint-free mittens.

Breakthrough in low cost decollating!

Manual decollator is low cost and trouble-free

Finally, you can buy a low cost decollator that's fast and well-built too! This compact unit will decollate and re-stack computer forms at *high speed* with minimum effort. You can actually decollate a 300-page report in about a minute and still keep your hands clean. The basic unit separates paper and carbon, and an optional attachment permits separation of carbonless forms.

Because it's hand powered, the operating speed can be instantly adjusted to form requirements. *You,* not the machine, stay in control. And you'll be amazed how easily it operates. It's so well geared you can literally turn the handle decollate forms with one finger. Manual design can also save future servicing headaches.

Carbon is collected by a removable bobbin that eliminates unnecessary messy handling. For carbonless forms, specify optional attachment for instant conversion.

This unit will pay for itself many times over in saved time and frustration. Decollator comes fully assembled, ready to go to work!

Manual Decollator
Item # 5472 Price $295.00 ea.

Carbonless Attachment
Item # 5473 Price $45.00 ea.

Specifications

Dimensions:	Width	Depth	Height
in use	41"	23¾"	24"
not in use	17½"	23¾"	24"

Weight: 22 LBS.
Shipping Weight: 26 LBS.
(meets requirements to ship U.P.S.)
Color: Textured ebony with computer blue.
Speed: Variable to 350 feet/minute.
Capacity: Up to one standard carton.
Paper Specifications:
—Up to 16½" wide.
—Most standard weights.
—Removes one carbon at a time—as many as desired.
—Separates carbonless with attachment.

Fully warranted for 1 year—ask for details.

Anti-Static Mats drastically reduce static electricity hazards

Simply walking across the room can generate thousands of volts of static electricity — that's more than enough to completely shut down your system or destroy data stored on magnetic media. These new mats are specifically designed to control the rapid build-up of static electricity that comes from the movement of people or externally charged objects such as furniture or rolling carts. They've been tested and proved superior in static protection to any other type of carpet — even to computer room tile. Both design and manufacturing process meet IBM recommendations for electrical resistance in computer room floor covering.

The secret is in the manufacturing process — specially conductive threads are woven right into the 100% nylon pile to give protection that's unaffected by wear or cleaning. Mats drain off static the moment you step foot on them and reduce it to the lowest level practical. Full 5 year guarantee. Color: Beige tweed.

Item #	Size	Price
5387	3′ x 4′	$ 50.00
5389	3′ x 5′	59.00
5388	4′ x 6′	98.00
5400	3′ x 10′	120.00

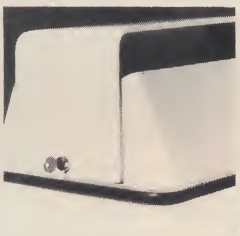
Anti-static carpeting also available in full rolls, other sizes and colors. Ask us!

DP Printout Receptacle

Secures confidential data until shredding

No longer do confidential printout and other documents have to lay around waiting to be shredded. New printout receptacle provides convenient security where you need it. A 2″ x 16″ mouth provides ample opening to receive thick quantities of material, yet unique interior baffling insures security—even if turned completely upside down. Numbered series lock is built into hinged, removable top for easy access by authorized personnel only. Fire resistant construction of heavy gauge steel features nylon feet to protect floors, and a vinyl bumper which surrounds the receptacle at its widest area to protect furniture and walls.
Color: Putty.

Item #5407 **$146.95**



Rugged disc tumbler lock comes with 2 brass numbered keys

Baffle and swing plate assembly prevents pilferage

Unlocked top swings back, slides off pin hinge

Bulk Tape Eraser

Totally erases magnetic media in seconds

Now you can erase confidential or unwanted data from Cassettes, Cartridges or Reel Tape in seconds! Handle has momentary contact switch to erase signals to below normal erase head level. Unit is U.L. Listed and operates on 100-120 volt AC. Size: 4″ x 2½″ x 4½″.

Item #5316 **Price: $26.50**
Order 4 or more: $25.00

Forms design ruler helps produce clean, professional reports

This top quality forms design ruler is specifically designed to meet the needs of programmers, system analysts, and forms designers. It's made of high grade, heavy gauge polished steel for long life and reduced slippage, machined to exact tolerances, and acid etched for image permanence. In addition to the features listed below, ruler includes metric, one inch, 1/6", 1/10", and 5/32" scales. This is a forms design ruler you can count on for complete accuracy.

Magic Chart™ forms design layout kit improves efficiency and assures accuracy in all phases of programming

For faster more accurate
- **Documenting • Designing**
- **Testing • Proofing • Checking**
- **Changing of Computer Printout**

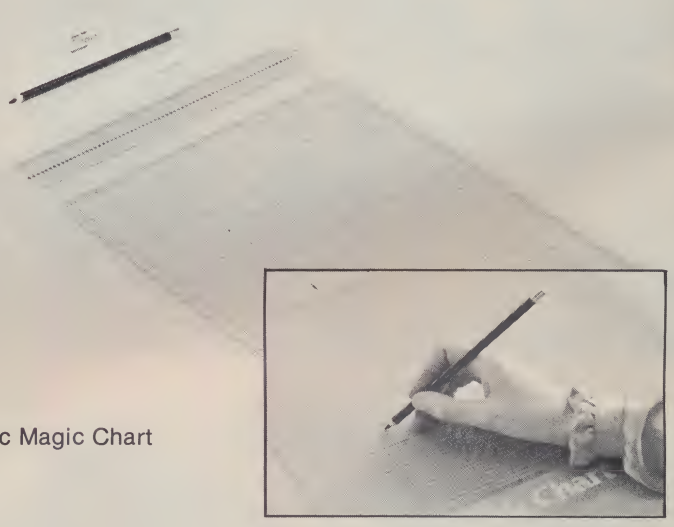
Here are some of the ways Magic Chart can help you: Design reports and pre-printed forms—draft reports right on Magic Chart with special marker. Correct mistakes with the wipe of a cloth. Xerox completed display layout for program specifications and documentation. Wipe Magic Chart clean and it's ready for your next report.

Modify existing reports and programs by superimposing Transparent Magic Chart over existing report or CRT simulation printout. Add, alter or eliminate data as needed. Every character, line and column will line up perfectly—automatically!

Convert manual forms into pre-printed continuous forms by placing Transparent Magic Chart over existing form to estimate spacing adjustments required to make the form computer-printable.

Simplify and streamline your layout design chores—Order a Magic Chart today.

Spacing:
144 positions per line, at 10 characters per inch. Available in 6 or 8 lines per vertical inch.



Kit Contains:
1 crystal clear plastic Magic Chart
1 felt tip pen
1 pencil
1 eraser

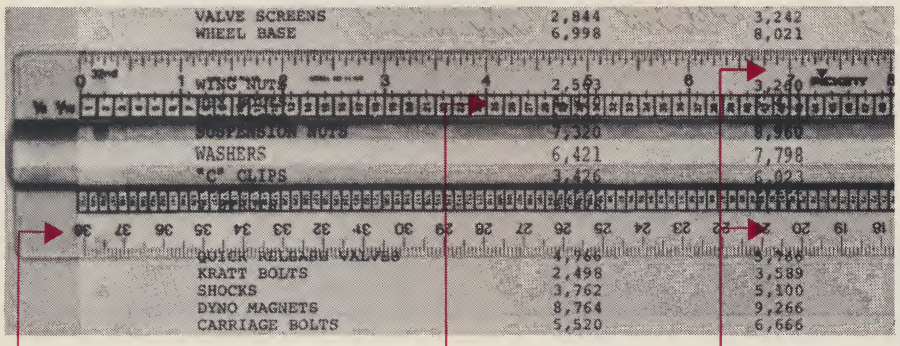
			Price Each		
Item #	Description	Size	1-4	5-9	10+
5171	Magic Chart Kit 6 lines/in.	14" x 18"	$35.00	32.50	30.00
5172	Magic Chart Kit 8 lines/in.	14" x 18"	35.00	32.50	30.00

3 Ways to increase efficiency and accuracy while reducing eye strain

All three styles of our DP rulers are designed to help everyone who reads and refers to DP reports. By highlighting one line at a time, you can easily read all the way across a 15″ page without errors, eye strain, or "line jumping."

DP Printout Rulers magnify print lines

This deluxe printout ruler not only highlights a line at a time, but magnifies it as well. Light blue tint areas above and below the clear magnification area put one upper and one lower line in contrast for easy reference. Ruler is 15″, with scales in both inches and centimeters. Line scales correlating with horizontal and vertical columns run through center of ruler. Use it for programming as well as easy reading!



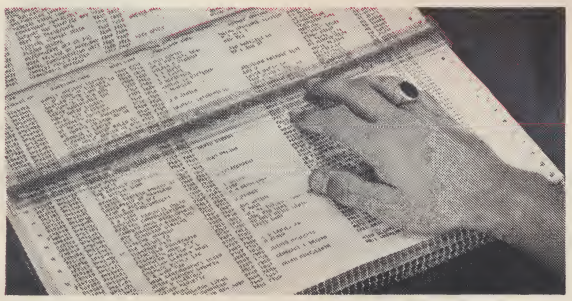
Reference columns contrast surrounding information providing a comparative analysis

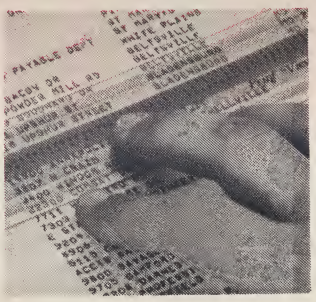
Magnifier increases efficiency and speed

15 inch, 38 cm ruler reflects the transition to standard and metric units of measurement

Item #	1	6	25	50
				Price each
5314	$6.95	6.70	6.55	6.40

Data Printout Rulers highlight print lines





Less fatigue, greater accuracy, more efficiency! It's a ruler, but it's a life-saver, too. It's transparent Blue plastic with a Yellow stripe that highlights one print line at a time so you read straight across without your eyes hopping up or down to neighboring lines. By isolating a single line of print, ruler helps maximize eye speed, reduces distraction and skip reading. Once you've used it, the question is "How did we get along without it?"

Item #	Length	10 (Min.)	25	50	100	500

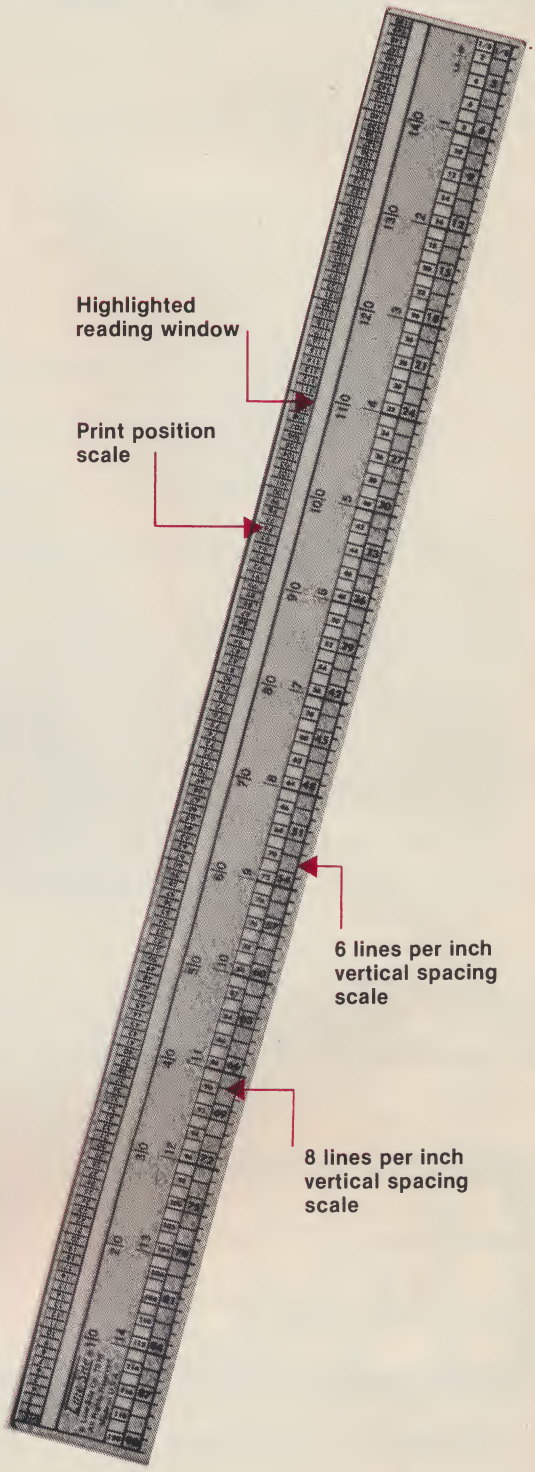
5312	8″	.90	.80	.75	.70	.60
5336	6″	.90	.80	.75	.70	.60

Programmer's Ruler

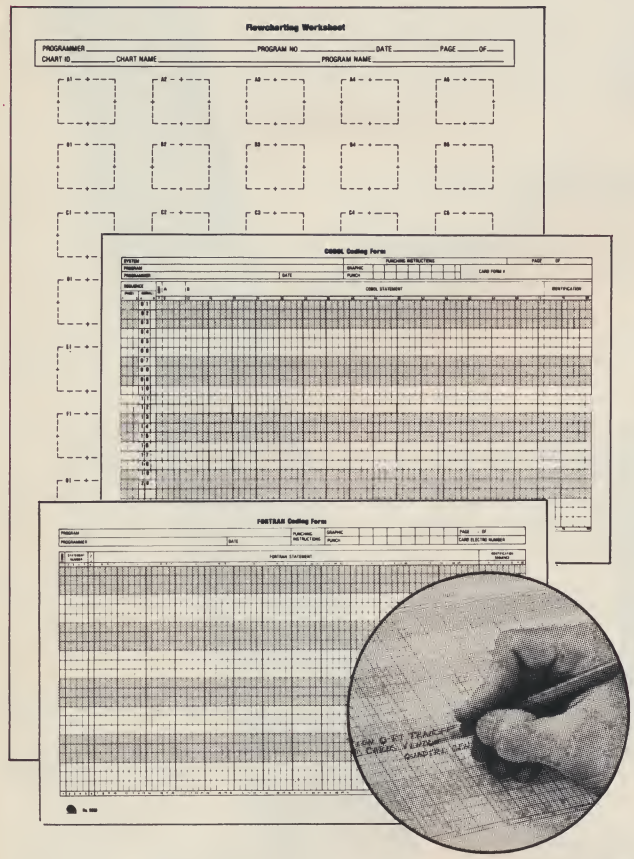


It's faster to measure than count — this program ruler is a timesaver. Horizontal spacing scale contains 150 print positions. Two vertical line spacing guides are scaled for 8 & 6 lines per inch. Highlighted clear window simplifies proof reading. Eye-easy plastic, clear & tinted. Length: 15″.

Item #	6	25	50	100	250
5313	$3.60	3.45	3.25	3.10	2.85

Flowchart Worksheets; Fortran and Cobol coding forms

Convenient formats speed programming time while reducing errors



Flowchart Worksheet — Provides 50 Process Control rectangles to facilitate organized, aligned, and accurate flowcharting without tedious drafting. Rectangles are printed lightly in green ink so only your actual documentation will reproduce. That means you can use it for final documentation and save even more time. Preprinted spaces are provided for Programmer, Program Name and Number, Chart I.D. and Name, Date, and Page Number. Reverse side is a Diagramming and Charting Worksheet printed in a ½″ square grid pattern that's 19 squares across and 25 down. Sheets are 3-hole punched and have fold marks to fit easily in any 8½″ x 11½″ binder or file. 11″ x 16″ sheets come 50 per pad, and 10 pads per package for a total of 500 sheets.

Item #5194 (Package of 10 pads) $35.90 per pkg.

Coding Forms — Easy to use coding forms save time and reduce program errors. Fortran and Cobol forms provide large ¼″ vertical spacing that's ideal for handprinting. Light green and white lines alternate at 3-character intervals to increase accurancy and prevent line-jumping.

Fortran — 80 column width sheet is compatible with punch cards, 80 column printers, and CRTs. Includes Statement Number, Fortran Statement, and Identification Sequence fields. Also has preprinted spaces in heading for all necessary identification and documentation information. Dimensions: 8½″ x 13¼″. 50 sheets per pad.

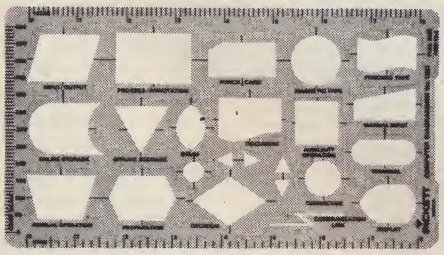
Item #5195 (Package of 10 pads) $23.50 per pkg.

Cobol — 80 column width sheet provides Page Sequence, prenumbered Serial Sequence, Cobol Statement, and Identification fields. Also has preprinted spaces in heading for all necessary identification and documented information. Dimensions: 8½″ x 13¼″. 50 sheets per pad.

Item #5196 (Package of 10 pads) $23.50 per pkg.

Save Time and Render Professional Results!

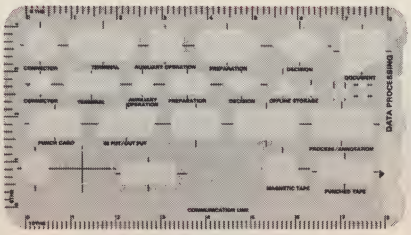
DP templates standardize design and documentation for efficient program development



Program Templates

Flow chart symbols in accordance with ANSI X3.5. Contains card volume scale, plus scales in 6ths and 10ths of an inch. Templates made of light green transparent plastic.

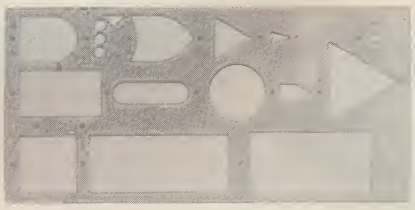
Item #	Price each 1	6 +
5318 — Full size 5″ x 9″ x .020″	$4.55	4.40
5319 — ¾″ size 4″ x 8″ x .020″	4.48	4.34



Data Processing Symbols

Contains the most commonly used symbols for data processing, flowcharting. Also has scales in 6ths, 8ths, and 10ths of an inch. Size: 5″ x 9″ x .020″. Templates made of light green plastic.

Item #	Price each 1	6 +
5335	$4.55	4.40



Standard Logic Symbols

For digital processing. Templates contain pinhole location points and meet MIL STD 806 and Y32.14. Made of thick, light green plastic with all openings beveled.

Item #	Price each 1	6 +
5327 — Full size 3⅝″ x 7½″ x .060″	$4.55	4.40

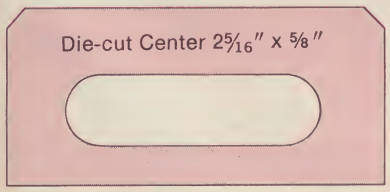
5367	$30.25	72.95	139.65

Cassette Labels

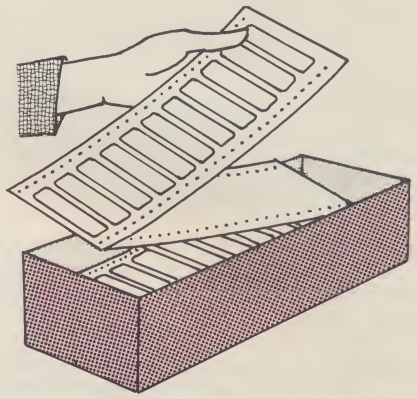


Print your own on any sheet-fed press or duplicator! Sheets have gripper space top and bottom to make the task easy. No-bleed permanent adhesive. Labels also may be typed or handwritten. 15 labels per sheet, 100 sheets, 1300 labels per box. White.

	Price per box		
Item #	1 box	2 boxes	6 boxes
5374	$25.00	22.60	21.75

Computer-Printer Labels

Select permanent or removable adhesive to meet your application needs



Trouble free! These self-adhesive data processing labels are designed to tolerate high speed printing without tearing or jamming. They're precisely folded so there's no skewing or sideways motion when they're being run. They're clean — leave no adhesive bleed at the edge and no lint or debris to foul your printer. They're smudge-proof.

Select from 2 types: permanent bond for one-time labeling or removable adhesive for use where frequent changes are required. Removable labels peel off with no adhesive trace — there's no build-up or dirt-catching residue. Removable labels are particularly suited to use on mag tape reels, disk packs, floppy disks or on programming forms. Handy out in the plant, too — on storage bins, inventory racks or wherever frequent updates must occur.

Pre-printed and blank labels formatted specifically for tapes and reels are also available, as listed below. They'll give you positive stick, but peel away clean when it's time for a change.

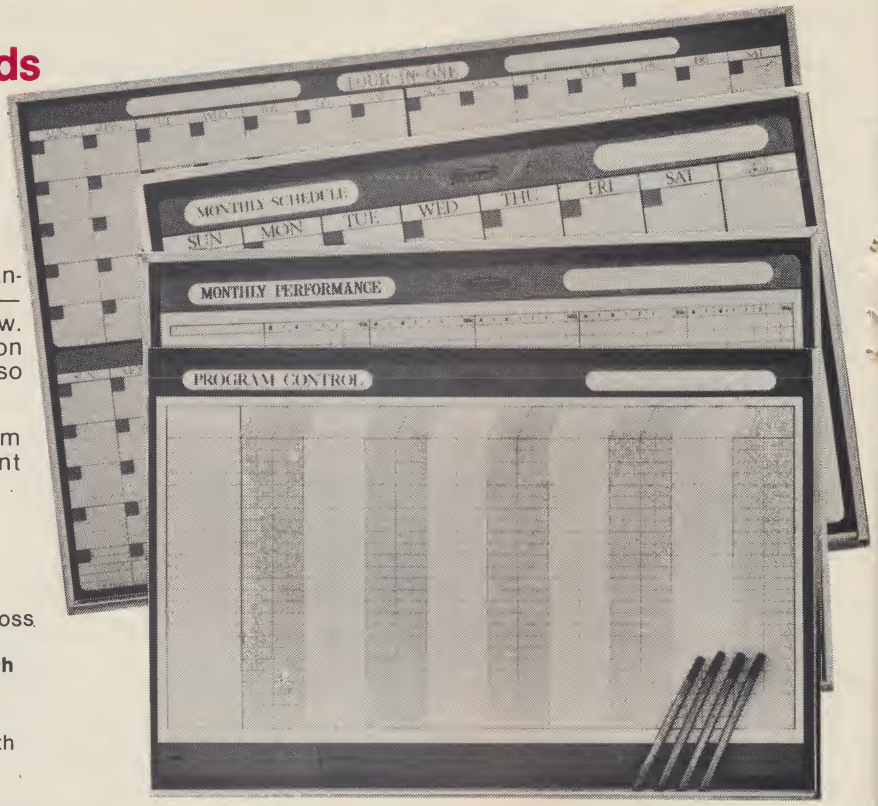
Write on/wipe off control boards

Try This Simple Way to Plan and Control Day-to-Day Activities and Deadlines



Write on, wipe off! Use these 18 x 27" charts to solve planning, scheduling and organizing problems. Easy to up-date—simply damp-wipe off old information, write in the new. Plastic coated surface has grid lines printed in 2 colors, on White, for easy reading. Pens are supplied in 4 colors so charts are colorful, effective.

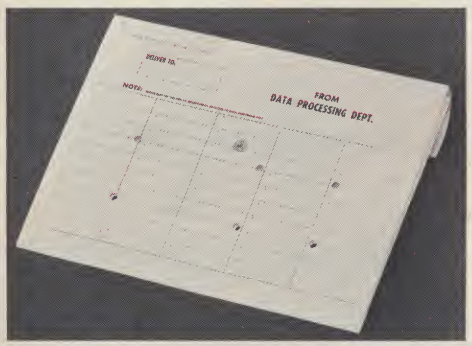
Rigid, durable construction: frames are anodized aluminum and include a handy pen tray across the bottom. Mount anywhere, either with hangers or tape included.

Item #9395 — Monthly Schedule in calendar format
9396 — Monthly Performance — 20 entry lines down; 5 weeks across
9397 — Program Control — 25 lines down, 18 cols. across

Price each: $46.00—Order 2 at $45.25 each—4 or more $44.50 each

LARGER 24 x 36" Four-In-One Board is a full 4-month calendar with generous write-in space for each day.
Item #9398—$68.75—Two at $67.75—4 or more at $66.75

Inter-Office DP Envelopes



Here's a faithful courier between Data Processing Department and designated personnel. Front is printed with 50 spaces so envelope can be used 50 times. Strong, 50 lb. white Kraft stock expands up to 2 full inches to hold up to 400 sheets of 14-7/8 × 11" printout. Equipped with string fasteners and pressboard buttons on both front and back. When flap is reverse folded, copy reads "Return to Data Processing Dept." Six holes drilled through the envelope show the recipient instantly whether all contents have been removed. Overall size: 11 × 16 × 2", packed 100 to a box.

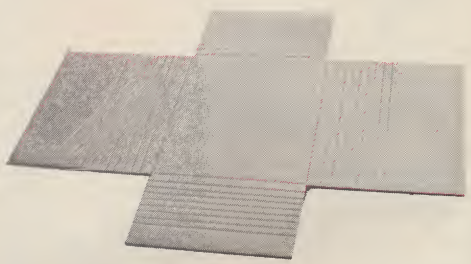
	Price Each			
Item #	50	100	200	500
5446	$1.00	.96	.92	.88

First Class DP Envelopes

Unmistakably First Class Mail! It is unlikely that the Post Office would confuse these mailers with slow moving Parcel Post. Open side envelopes are printed with a conspicuous green diamond border and the words "FIRST CLASS MAIL," giving your reports a sense of urgency and commanding immediate attention. Large 400 page (14-7/8 × 11") report capacity with Press-Tite Dri-Seal Flaps. Choose from sturdy 40 lb. Kraft stock or super-strong TYVEK®. Dimensions of both are 11 × 15 × 2", packed 250 to a box.

		Price Each			
Item #	Description	50	100	250	500
5447	40 lb. Kraft env.	$ .90	.86	.82	.78
5448	Tyvec® env.	1.05	1.00	.96	.92

Fold & Tape Mailers



Simplify! One size mailer will handle a multitude of shipping chores because it has multiple score marks. Just fold around material to be mailed, tape shut, label and ship. Letter and legal sizes are scored in ½" increments, DP size is scored in 1" increments. It will pay to have these on hand! NOTE: Because of overall measurements, DP size shipped by truck only.

			Price each		
Item #		Capacity	50	100	250
5976	— Letter	½ to 4"	$1.10	1.07	1.02
5977	— Legal	½ to 4"	1.18	1.14	1.10
5978	— DP	1 to 6"	1.35	1.30	1.26

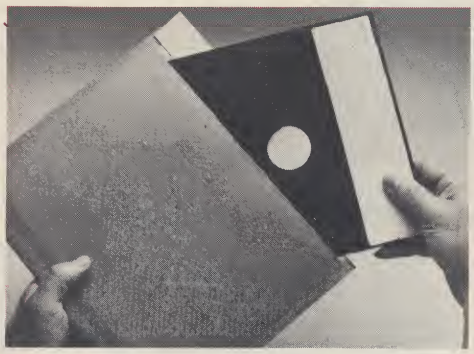
Sizes may be assorted for best quantity pricing. MINIMUM shipment per size in an assortment is 25 pieces. #5978 shipped motor freight.

Floppy & Mini Mailers

Ready-to-go convenience! Save time and money with these standard and minidisk mailers. They're made of sturdy corrugated fibreboard that meets postal and UPS shipping requirements. Tuck-in wings help protect from damage in transit. Each mailer holds up to 5 disks and closes with a fold tab. Just count the hours that can be wasted in cutting other cartons to fit this problem and you'll agree it makes sense to have a supply of these mailers on hand for fast dispatches.

		Price Each		
Item #		20 (Min)	50	100
5913	Floppy	$1.40	1.32	1.29
5914	Mini	1.18	1.10	1.07

Anti-Static Mailers



Double protection! Heavy, dense 90-lb. paperboard envelopes are lined with fused-on, anti-static foam so you can mail, ship and store disks with assurance of maintaining their complete integrity. Polyethylene liner eliminates dust and dissipates stray electronic charges on its surface. Rigid outer envelope gives positive resistance to destructive bending. Peel-and-seal strip provides easy, positive closure. Each mailer holds one disk.

DP File Folders

Put your data printouts undercover in heavy-duty Manila file folders, sized for reports up to 11 x 14⅞" and scored to expand up to 1". Each folder will hold up to 300 sheets—ideal for short-term reference or long-term storage. Index tabs across top in 3 positions. Manila is almost twice as heavy as standard file folders to give you lots of service for very little money.

	Price Each

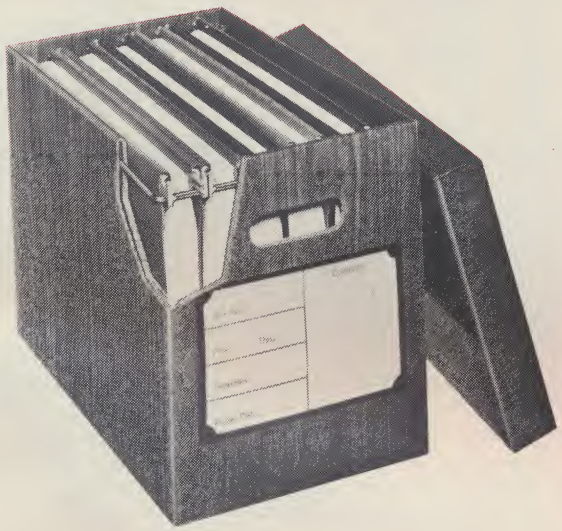
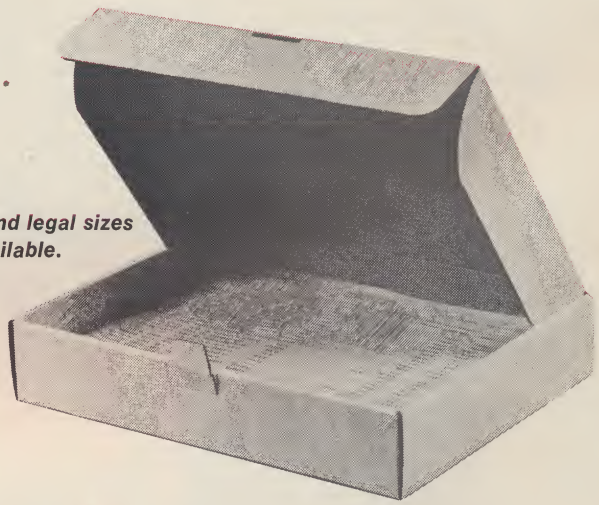
5135	$.60	.55	.50	.47





Letter and legal sizes also available.

DP Printout Storage Boxes

Here's convenient hanging storage for DP reports bound in hanging binders—just hook the binders over the metal rod built into this storage unit. Box is made of 200 lb. test corrugated, 3 thicknesses on sides. Metal hanging rod also doubles as a reinforcing frame. Attractively finished in walnut woodgrain with separate cover for easy access. Unit is shipped flat, assembles quickly without tools or tape. Set-up size is 12½" H x 11" W x 18" L.
Price does not include binders.

DP Printout Mailers

Now data printouts can survive mailing and shipping! These 1-piece die-cut shipping containers are made of 200 lb. test corrugated fibreboard with extra panels and folds to combat the rigors of transportation. Great for shipping, and smart for some types of storage. For 11 x 14⅞" reports; inside dimensions accommodate report covers. Containers are white. Quick to set up.

Versatile storage cabinets you can custom design to fill your exact needs

Design it yourself! In just minutes you can specify interior accessories to create a storage cabinet for your vital DP media, back-up, documentation and records.

Start with the outside cabinet. It's handsome and rugged. Tambour door rolls up for total access, rolls back down for total security under lock and key. Because space is usually at a premium, you can put every square inch to good use.

The full range of interior options allows you to store almost anything from printout binders to diskettes to microfiche and mag cards—even data modules, cassettes and tape reels. All this—in just 5 square feet on the floor. Lateral design gives you easy in-and-out access to contents, requires far less aisle clearance than pull-out files.

Along with compact, convenient organization, this versatile storage cabinet is smoke and fire-retardant. It's handsome in your choice of Gold, Putty, IBM Blue, Brown or Black*. White tambour door comes with your choice of Brown or Black accent stripe. Good looking wherever it sits—useful positioned as an attractive space or room divider.

Basic Unit, Cabinet Shell
Exterior Dim.: 36" W x 65" H x 18" D
Interior Dim.: 34" W x 60" H x 15¼" D
Item # 5811 **Price $295.00**

Illustrated:

(1) 5816—Suspended Reel Storage Bar
(2) 5814—Cassette Storage Drawer
(3) 5818—Pull-Out Shelf to hold two Disk Packs
(4) 5815—Reel and Diskette Rack Storage
(5) 5813—Printout Storage Bars complete with fixed shelf

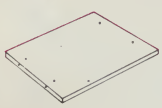
This is a storage cabinet built for the future, too. As your needs change, just select different drawer options and rearrange to fit your requirements. Sturdy shelves are built to accommodate change over a long lifetime.

Compare flexibility, security, capacity and price. We think you'll agree this is the best value in a data storage cabinet on the market today.

This handsome data cabinet will handle your data storage needs with security and style.

Because unit is custom-designed at the factory, please allow 4-8 weeks for delivery.

Components



Flat Shelf

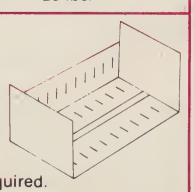
Reel and Diskette Rack
W 34" H 6" storage rack. Mount to cabinet sides or on shelf (specify). 15" clearance required for 12" reels. Maximum 4 racks per cabinet.
#5815 $58 *13 lbs.*



Pull-out Shelf
15" clearance required.
#5819 $172 *28 lbs.*

design your cabinet in minutes here's how:

- Start with the Basic Unit
- Begin shelf design at top so that space remaining at bottom will be ample
- Place materials you use the most at eye level—shelves 1, 2 and 3.
- Reserve bottom shelves for storage space
- When selecting shelves, add up height for each option
- Make sure the total doesn't exceed the interior clearance of 60"
- Remember to specify: Cabinet color—Putty, IBM Blue, Brown, Black or Gold
  Door accent stripe—Brown on White or Black on White

Microfiche Panels

Four colors—two panel sizes

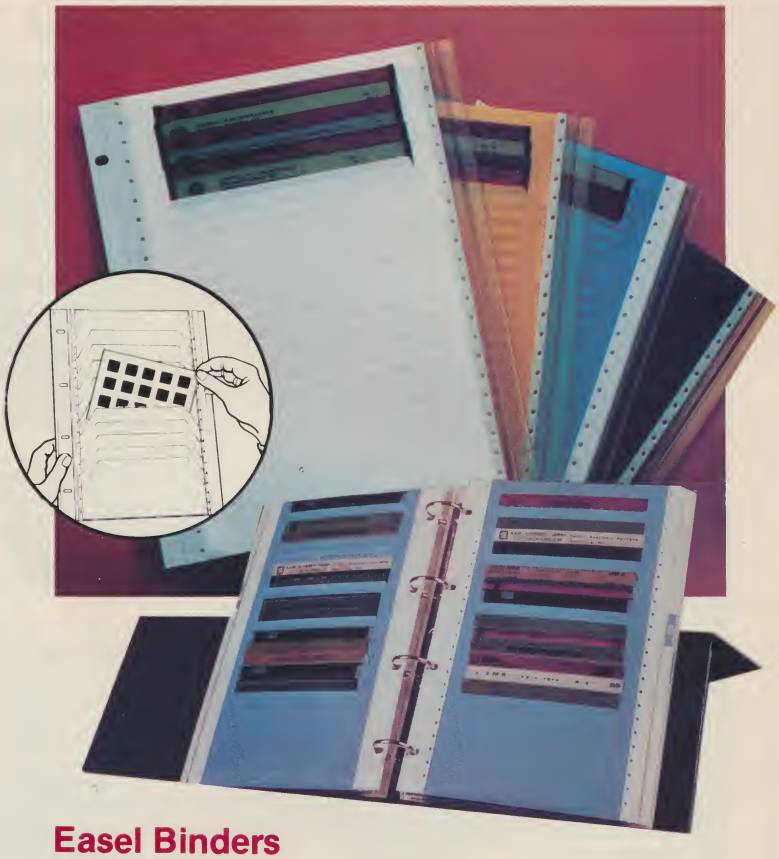
Top efficiency in handling microfiche starts here. We believe these panels offer the smoothest, fastest in-and-out action of any design on the market. Unique shingled pockets with deep cut sides have a slightly angled lip so fiche is guided into position effortlessly. No snags. No hang-ups. Fiche may be handled from left or right with equal ease. Titles are easy to scan for fast retrieval.

Panels are made of specially formulated plastic, totally compatible with microfilm. It's tough. Sharp fiche edges can't cut it. Each panel is finished with an axle channel on one side, which is also hole-punched for binder housing. There's a clear index channel at the outer edge. **Panels are rigid and fast to flip.**

Available in 4 colors for title readability and systems coding. Title exposure is ⅜″. Insertable index strips are included.

SPECIFY COLOR: White, Blue, Green, Orange

Item #	Size	# Holes	Fiche Capacity	Price Each 5 (Min)	20	60
7330	11 x 8½″	3	40	$6.40	$6.20	$6.00
7332	12 x 8½″	4	44	7.00	6.80	6.60



Rotary Stands

For full 360° access to your active microfiles, these Rotary Stands will serve you well. They're particularly efficient when more than one person needs access at the same time. Stands are available in 2 capacities: to hold 50 or 100 panels. Heavy metal base sits solidly, requires about 20 x 20″ clearance for full rotation. Axles for attaching fiche panels are included with stands.

Panels must be ordered separately. For maximum space utilization, order Panel #7332, above. When equipped with this panel, #7334 Rotary Stand stores 2200 fiche; #7335 Rotary Stand stores 4400 fiche.

Item #	No. of axles	Price Each Rotary Stand
7334	50	$127.00
7335	100	204.00

Easel Binders

Neat package when you need around 200 fiche readily available for desk top reference. Top quality Easel Binder has a mechanical locking wedge to reliably hold fiche panels on the slant for easy selection. Rings are mounted in the back cover so panels always lie flat and well aligned. Set includes binder in Navy Blue and 5 panels with insertable index strips. Title area is ⅜″.

SPECIFY PANEL COLOR: White, Blue, Green, Orange

Item #	Panel Size	Fiche Capacity	Price Each Complete Set
7342	11 x 8½″	200	$44.00
7343	12 x 8½″	220	47.00

Fiche Album

This button-snap vinyl album is another great traveler or a desk drawer library. It opens like a fan, provides fast retrieval for fiche filed in its 55 pockets. There are 5 "free position" rigid plastic index sheets—simply insert them where needed, move them around as needs change. Insertable blank labels are provided for the index tabs. A clear vinyl pocket on the outside back spine of the album provides generous space for identifying contents. Overall size when closed is 6½ x 5 x 1½″.

COLOR: Navy Blue

Item #	Price Each 1	6	12
7346	$17.00	$16.00	$15.00

Indexed Panels for Microfiche

Start an economical microfile with 11 x 8½" fiche pages designed for ring binder housing. Select durable paper construction **(#7301)** for good service at low cost. Or, select synthetic plastic paper made of 3 plies of stretched polypropylene for longer wear **(#7303).**

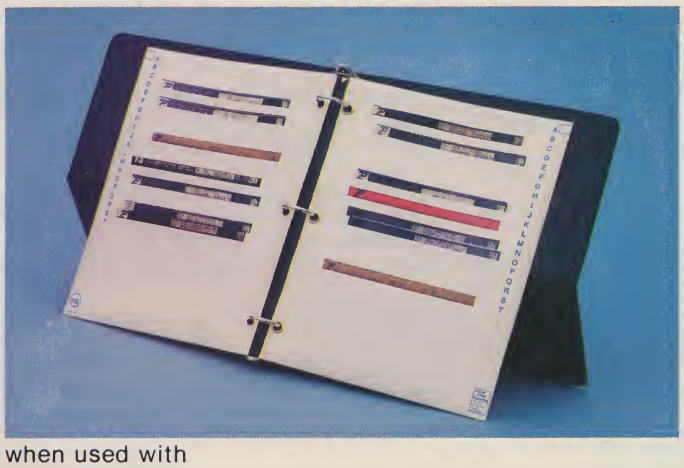
Both materials are completely acid free to prevent chemical reaction to film images. Both pages have metal eyelet reinforcements at the binding holes. Capacity per page: 40 standard fiche (105 mm x 148 mm). Title area is ⅜".

Pages provide a great file-and-retrieve system: there's space for a page number at the top, plus preprinted letters down the side for fast indexing to a Contents Page, included with each fiche page.

		Price Each		
Item #	Color	5	25	50
7301	White (Diazo)	$4.35	$4.18	$3.98
7303	White (Diazo)	5.45	5.30	5.10

Easel Binders

For Fiche Panels



Easy viewing! A clever easel assembly, hidden in the spine, holds binder at an ideal viewing angle when in use. They're great when used with the fiche panels shown above, or with other 3-hole punched, 8½" x 11" products in this catalog. Binders hold up to 5 fiche panels comfortably in 1" capacity. Top quality construction of .015 virgin vinyl in Black.

		Price Each		
Item #	6 (Min)	12	25	50
9325	$6.95	$6.80	$6.45	$6.15

Microfilm Pen Writes White!

Here's a pen that writes permanently in opaque white on microfilm. Handy for updating a fiche file — one dot indicates an obsolete frame. Writes on X-rays, other films, plus wood, paper, plastic, metal, painted surfaces. Can be used almost anywhere a permanent mark on a dark surface is required. Fast drying, waterproof—won't fade, smudge or rub off.

		Price Each	
Item #	6 (Min)	12	24
7324	$3.50	$2.95	$2.80

Pockets/Envelopes

Both our microfiche pockets and envelopes are constructed of quality acid-free paper for long-term, safe storage of 4x6 fiche or jackets.

#7306 Fiche Pockets—Keep fiche with related hard copy. Just moisten gummed strips on back of envelopes and attach to file folders.

#7307 Fiche Envelopes—Hold leader and trailer fiche together. Special envelopes are designed to keep titles fully visible.

	Price per M		
Item #	1M	5M	10M
7306	$99.50	$97.90	$95.50
7307	64.75	63.10	61.50

Fiche Mailers

Heavyweight semi-rigid kraft stock makes a sturdy mailer to hold from 1 to 30 microfiche. A unique seal allows the envelopes to be slit on a mail opener without endangering the fiche. For interoffice use there's a thumb cut for ease of insertion, removal and visibility. Durable enough to do the job without need for reinforcing stiffener. Size is 4¾ x 6¾".

	Price per 100		
Item #	200	500	1000
7308	$11.95	$11.60	$11.25

Benefit from Rapid Access to Large Amounts of Data

System can be expanded quickly, easily, and economically!

Easy In-and-Out Access

Full 360° rotation makes all four sides of every carousel instantly accessible to one or more users. Each storage cubicle slants inward and downward so cassettes and cartridges are held securely when files are in action. Compact size lets you put important information where you need it: a low-profile carousel file can be conveniently located on any desktop for frequently referenced data; taller floor units (with a capacity up to 600 each) can be clustered at work stations, where several operators have access to a file bank containing literally millions of documents. Each carousel, whether desktop or floor unit, requires less than four square feet for free rotation and unrestricted use. Labelling space is provided on each carousel for quick identification of each section and unit of stored material.

Expands Quickly, Simply

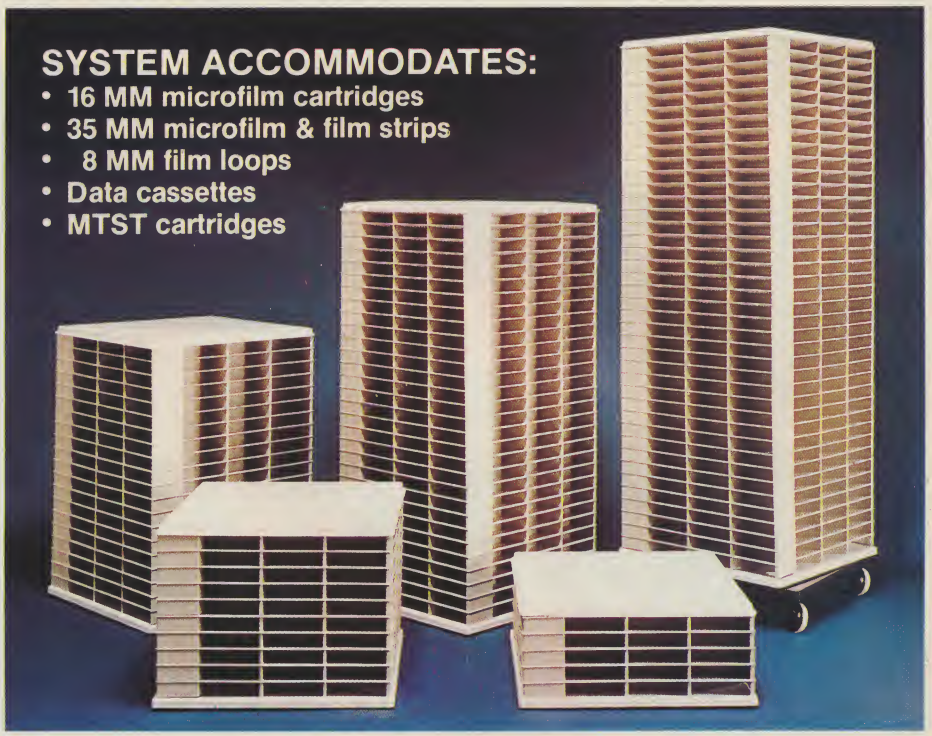
System builds from a basic module that has 60 cubicles to house your media. A starter carousel includes a basic module, a top and bottom. The bottom is a turntable with ball bearings that allow it to rotate freely in either direction. To quickly and easily expand the basic unit, remove the top, add on an expansion module and replace the top. No tools, no bother!

The 60 capacity carousel can be placed on any desk top and expanded to 120, 180, and 240 capacity before requiring a floor location. On the floor, carousels can be built up approximately 5 ft. At this height, a single carousel will have a capacity of 600 when storing 16 MM materials, MTST cartridges, and data cassettes; or 360 units when storing 35 MM microfilm, 35 MM film loops, and 8 MM film loops.

Value

The Carousel Storage System represents a good value! High accessibility insures much more efficient use of stored materials and users' time. High density storing requires less square footage of floor area, allowing better utilization of existing facilities. Finally, you buy only what you need, yet have the ability to expand your capacity at any time as your requirements grow.

Carousels are made of durable, high impact plastic that gives you years of service plus the convenience of light weight in handling.



Carousel Storage System Ordering Information

Two cubicle sizes are available to accommodate different media requirements. Select the size you need from Series A and B.

Series A — 4¼″ wide x 1″ high x 3″ deep cubicles. Most 16 MM microfilm, MTST cartridges, data cassettes, and audio cassettes fit this series.

Series B — 4¼″ wide x 1¾″ high x 3″ deep cubicles. 35 MM microfilm, 35 MM film strips, and 8 MM film loops fit this series.

Series A and B are interstackable. Both are 17⅜″ square. When stacked modules are placed on a carpeted floor, metal base with casters (#7812) should be used. Metal base also recommended when mobility is required.

Complete Carousels — include tops and lazy susan bottoms. #7805 and #7809 also include metal bases with casters.

	Item #	Capacity	(lbs.) Wt.	Price
Series A	**7801**	60	13	$105.00
	7802	120	20	154.00
	7803	240	34	252.00
	7804	360	48	346.00
	7805	600	86	564.00
Series B	**7806**	60	14	105.00
	7807	120	22	154.00
	7808	240	38	252.00
	7809	360	64	371.00

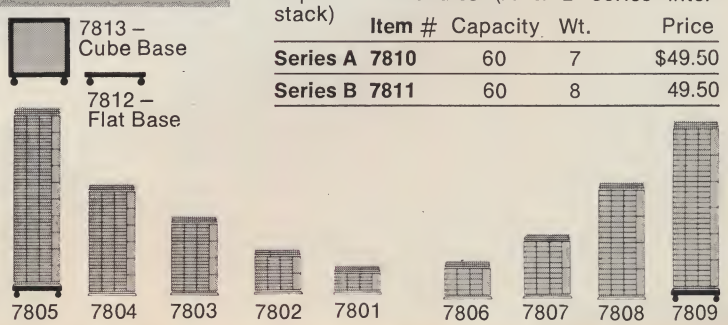
Bases

A metal base is recommended where placement is on a carpeted floor. The #7813 cube base is 17″ square and has a convenient storage shelf. The #7812 flat base is 18″ square. Both bases are black steel construction with four full-swivel casters. The #7812 flat base is included with #7805 and 7809 carousels.

Item #	Description	Wt.	Price
7812	18″ flat base	10	$ 49.00
7813	17″ cube base	34	124.00

Expansion Modules (A & B series interstack)

	Item #	Capacity	Wt.	Price
Series A	**7810**	60	7	$49.50
Series B	**7811**	60	8	49.50



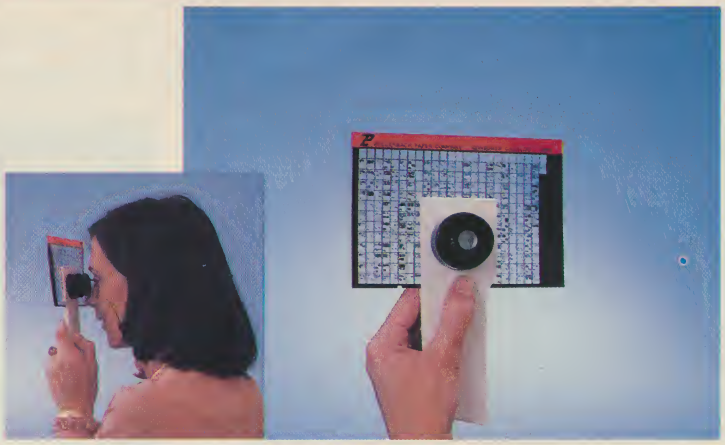
Microfiche Handviewer

Sharp, clear magnification from a portable, lightweight unit

This handviewer is a high performance, low cost unit for viewing microfiche, jacketed film, and aperture cards. No batteries or power are required, and its light weight and small size let you take it anywhere for quick, on-the-spot reference.

A precision, high grade optical system delivers clear, sharp magnification of data. Variable focus provides comfortable reading for people with or without eyeglasses. And it's easy to use—just slide fiche, jacket, or aperture card into slotted holder at top of unit. 15x magnification lens for reductions up to 42x. Snap closure vinyl carrying pouch included.

Item #7357 **$35.95**



Microfiche Workstation stores 7200 fiche within easy reach!

Designed from top to bottom for maximum efficiency and convenience! Workstation has six built-in microfiche drawers that store 1200 fiche each, so you have access to as many as 7200 fiche without ever leaving your chair. Brushed aluminum and wood construction is sturdy, functional, and beautiful. A depth of only 21″ makes unit fit easily into existing office areas, yet provides a generous work surface and space for equipment. Shipped knocked down, easy to assemble. Dimensions: 21″ D x 60″W x 29″H. Available with optional locking door.

Item #	Description	Wt.	Price
7501	Microfiche Workstation	73	$486.00
7502	Microfiche Workstation W/Door	78	525.00

Note: Other sizes and configurations of the microfiche workstation available. Contact Devoke for details.

Hi-Lo* Microfiles

Simple, effective, economical—these work station microfiles hold fiche under continuous compression. A low bar and a high bar adjust the fanning action for fast retrieval and speedy, accurate refiling. Aided by the electrostatic attraction of plastic segregators, titles are readily visible at a touch. So uniquely designed, you can turn the file upside down without spilling a single fiche. Files available in 50, 100, and 300-fiche capacities. **All fit into drawers and cabinets shown on page 45.** Index sets can be added as optional aids.

Files are made of welded steel wire with scratch-proof feet. Matte finish plastic segregators are supplied full-cut for diazo fiche, center-cut for striped fiche. Number of segregators supplied is the same as fiche capacity shown below. All Files are 6¾″ W x 4¾″ H.

*U.S. and Foreign Patents Pending

Item #	Fiche Capacity & Type	Price each
7374	50 striped	$17.50
7375	50 diazo	17.50
7376	100 striped	23.85
7377	100 diazo	23.85
7378	300 striped	49.95
7379	300 diazo	49.95

Microfiche Indexes

Index sets for microfiche are available in matte finish White plastic, preprinted: alphabetical, numerical, monthly, or blank, for custom indexing. All are 4⅝″H x 6 3/16″W.

Item #	Type	No. tabs per set	Price per set
7392	Alphabetical	24	$4.95
7393	Numerical 1-31	31	5.95
7394	Monthly	12	2.95
7395	Blank, 5 tabs across	50	5.95
7396	Blank, 3 tabs across	50	5.95
7397	Blank, 1 tab across	50	5.95

Modular Microfiche System grows as fast as your needs do

Here's an expandable modular microfile system that can grow as needs grow, with handsome good looks and working efficiency. You can use the cabinets to create divider wall systems, or start with single drawers for desk top reference. Cabinets are made of wood, finished in walnut grain, with anodized aluminum frames and steel inner structure. Cabinets offer the durability and utility you need, with the looks of fine furniture you'll appreciate. Drawers are smoothly molded in one piece of durable high-impact styrene, with deep pulls and swift glide runners. Drawers are Beige to compliment the woodgrain cabinets.

Units stack as needs grow

1, 2, 3, drawer files. . .

Separate units go to separate work stations . . .

Drawers can be removed and taken to different work stations. Drawers also accomodate Hi-Lo® Microfiles on page 44.

Cabinets can create divider walls

Ordering Information

- 6 & 16 drawer cabinets are shipped with aluminum frames pre-assembled with side panels and lock bushings. Balance of assembly is simple, slide-in, snap-on procedure.
- When doors are ordered, SPECIFY LEFT OR RIGHT HINGE. Door includes lock and 2 keys. (Unit will be shipped with door installed.)
- 6 drawer cabinets can be stacked vertically with joining pins. If 4" legs are required for a base unit, select Item #7387 below.
- 1, 2, 3-drawer cabinets are shipped completely assembled.
- All cabinet prices include drawers.

Hanging File Binders—For deskdrawer filing

Customers who order again and again prove these Hanging File Binders build a filing system that works, and works well. You get the loose-leaf benefits of a file folder with the bound-in security of a 3-ring binder. Because papers are bound in sequence there's faster retrieval, less mis-filing, fewer mislaid files.

Hanging Binders drop into any file drawer equipped with a suspension frame. They're readily visible, even when co-mingled with folders and pockets. Single-piece hanging rod is smoothly finished, glides easily on file frame, won't snag when binder is out of file. Covers are flexible Polyoak, a long-life grained plastic.

Easy retrieval at deskside—Hanging Binders are particularly efficient for files you reach for constantly. Excellent for containing single-subject build-up—rugged enough for constant reference. Use them everywhere you need the complete story, in sequence, inside one cover.

VERSI-TABLE™ from Devoke: It can handle any line printer made!

Versi-Table™: A stand for all line printers

Tired of looking for the right stand for your line printers? End your search here! Not only will Versi-Table handle traditional rear-feed printers, but its top has a 5¼ x 15 x ¾" opening to accomodate bottom-feeders as well.

And that's not the end of Versi-Table's features. Tubular steel construction is made to hold 400 pounds, eight times the weight of most line printers. Finished in a handsome walnut wood grain, it comes with or without a paper catcher basket. Generous 17 x 19" basket is constructed of sturdy, heavy gauge steel wire to easily hold a whole carton of printout. Leveling guides are standard, casters may be added. (See page 5). Dimensions: 24"W x 24"D x 26½"H.

And the next big plus is that Versi-Table's price actually beats the competition. Order today—they're in stock, ready to ship!

		Price Each	
Item #	Description	1	6
5443	Versi-Table w/o basket	$125.00	122.00
5444	Versi-Table w/basket	152.00	148.00

		Price Each		
Item #	Description	1	5	10
7495	Tray, top, indexes	$23.00	22.00	20.95
7496	Tray & indexes	17.95	16.75	15.70
7497	Tray only	13.95	12.55	11.50

Microfiche Tray

Holds up to 1,200 fiche in portable, desktop convenience

Practical, portable fiche tray holds 1,200 microfiche or 800 fiche in individual envelopes. A 12-tab index system provides quick identification, quick retrieval. Four stop guides separate fiche into groups for faster reference.

Construction of light, high impact plastic makes it convenient to take fiche to other reference locations. Smoked plastic top protects fiche from dust and contaminants when tray is not in use. Tray color is Putty, indexes are White, stop guides are Black. #7495 and #7496 include 3 sets of four-division plastic indexes with ½-inch tab extension. Adhesive labels furnished. Dim.: 7¼"W x 12"L x 5⅝"H.

Wave Pad™

Mats reduce printer noise by dampening vibrations

Printer noise is irritating and counter productive. These new mats drastically dampen vibration noise while stabilizing the printer and aiding in proper cooling. Traditional felt or foam rubber office machine pads tend to compress over time and lose their effectiveness.

Wave Pad is constructed of natural rubber with a laminated layer of nylon on top—it doesn't lose its shape! It's been laboratory-tested and proven to outperform and outlast traditional felt or foam pads. Bottom-feed printer? Cut a slot in the pad with a sharp knife. Reduce printer noise while adding stability—order today! Dim: #5438—⅜" x 18" x 21"; #5437—⅜" x 21" x 23". Specify Brown or Blue.

		Price Each	
Item #	1	6	12
5438	$18.50	17.75	16.95
5409	25.95	24.65	23.40
